### **Excerpt from beginning of clip:**

*"...I'm so not interested in theory. At all. I think it's a waste of time. Anyone can have a theory or speculate... So what I'm looking for are conspiracy facts. And to try and find out what actually happened. Was there even a conspiracy? And, if so, who benefits. Cui bono? Who carried it out... and the reason why...*

*I think the difference is that I've been doing this for some*

40 years...

*It was 1980 that I started to become aware. And that is longer than many people have lived. So that gives me a certain advantage point. Also because I've been totally devoted – meaning obsessed almost trying to find out – for my own sake – because I just felt 'I don't understand. I'm very confused here. What is going on?'*

*And then the more I got into this world – and the areas I specialized in are top political assassinations and so-called false flag operations, you know, where we see the few in power, through deception and propaganda, are playing ping pong with our brains to achieve their goals."*
