[Michael Tellingner](#) is a historian and social scientist.

In my podcast, he discusses the [One Small Town](#) project and

- why [soveriegn communities](#) matter;
- why capitalism is harmful;
- how the [monetary system](#) is slavery;
- and what we can do to restore human freedom.

Michael also shared some fascinating insights on why everything we think we know is a lie, and why it's beneficial to "unlearn" conventional education.

Video is available at [Jerm Warfare Odysee](#) channel.
