Michael Tellinger is a historian and social scientist.

In my podcast, he discusses the <a>One</a> <a>Small</a> <a>Town</a> <a>project</a> and

- why soveriegn communities matter;
- why capitalism is harmful;
- how the monetary system is slavery;
- and what we can do to restore human freedom.

Michael also shared some fascinating insights on why everything we think we know is a lie, and why it's beneficial to "unlearn" conventional education.
