December 3, 2020

The Canadian Armed Forces have engaged operation VECTOR, its vaccine rollout plan to immunize the entire population of Canada.

The plan is being rushed through under the guise that COVID-19(84) is the biggest threat to humanity and therefore the military (who have recently been caught engaging in propaganda campaigns to scare the Canadian people) is now tasked with ensuring a nationwide rollout as early as Spring of 2021.

In this video Dan Dicks of Press For Truth exposes operation vector as a plan that must be avoided at all costs!

DO NOT get the shot because the shot IS the pandemic!
