

Paedophilia and the Brutal Cover Up – Psychopathy At Large

Hardly anything gets me more upset than the in-your-face paedophilia issue: the disgustingly obvious truth of it, the massive cover up and denial, and most of all the prosecution and abuse by authorities of the very victims of these crimes. In any other universe these people would be cared for, lovingly listened to, and protected.

Today? It's the bizarro world of muzzle and kill the good people and let the devils run amok.

And this issue is not just paedophilia. This covers even more taboo subjects the cowardly public refuses to pursue. That's the most outrageous and mind-bending aspect of this whole swept under the carpet issue. We're also talking satanic ritual abuse, supposedly human creatures actually performing sexual and torturous blood sacrificial rituals on innocent children, as well as others. Routine rape and other forms of physical abuse are merely lower level forms, yet just as horrific, of these same demonic abuses.

That this phenomenon that has gone on for centuries and continues full throttle into today's world is something the world is apparently not prepared to accept – and therefore complicit in – is only sealing humanity's own fate if it

doesn't wake up and decide to stand up against it.

The situation in the UK is ripe for further exposure. There are so many known creeps coming to the fore just ripe to be fully prosecuted. Valiant people have worked hard to expose this issue including David Icke and many others for years. The public is listening and it's having a profound effect.

May many more arise to tear down the walls of cover up and deceit and lay into these bastards in the highest levels of power with everything in them!

If That's Not Enough, Look at the Vatican

What more obvious and in your face example can you have than dirty, perverted old, and young, men disguised as "conduits to god" sexually abusing young people? It's so common it's become a joke.

Where's the joke in that? Where the hell is common sense justice and stopping these perverse maniacs from preying on innocent children?

No – humanity is washed over with waves of pacifying propaganda minimizing the issue with just a dab of outrage to keep it believable. Damn. If you're not outraged you're not fucking paying attention!

Literally "cloaked" in garbs of deceit and presupposed authority these dirty minions from hell have been doing this for ages. And the outrage? Ask the billions of Catholics who maintain their dystopian loyalty to this cult of abuse. Where the hell are they? Transfixed in religious dogma and blind subservience.

But the Catholic Church is not only one vector of such ritual abuse. Research for yourself, the connections meet up with any and every organization or so-called religious or secret institution. Rampant abuse is at work as we speak.

It's dark and very insane. And costing lives, often dying in abject agony. When will humanity wake the hell up?

The Ingrained Abuse System

Missing children and misplaced or supposedly dead babies and disappearing youngsters are rampant statistics yet no one questions why. Governments don't care or it would be a center issue instead of marginalized on milk cartons, once upon a time, and off beat news stories, if anything at all.

This is what we're up against.

The cover up is as plain as day yet few seem to sit up and take serious notice. Hence the reference to our current dystopia, a place where up is down and right is wrong and nothing of moral value matters. We're descending into just such a pit as we speak.

But It Doesn't Need to be So

Real people care. They love, they have heartfelt concerns. The narrative humanity is being handed by these massive discrepancies not being addressed is simply a ploy, an old one in fact, of convincing the masses that what they think they are concerned about really isn't a problem.

Controlling psychopaths having their way with a complicit humanity. Absolute self destructive insanity.

There's not much more I can say on this, except the following video. If this doesn't rip your guts open in outrage and disdain for our current fully corrupt system I don't know what will.

Please, be a voice for truth and sanity. Make your conscious, loving and caring presence known for the sake of the suffering. Speak up and make a difference. Our future and that of our children and fellow humans is at stake.

Much love, Zen
