

Philip Zelikow's Covid Coverup

“The Project for a New American Century was not a plan for a robust American empire. Just the opposite. It was a plan to use the US and its people as pawns in what was really the Project for a New World Order. America’s contribution to that was to let itself be robbed physically, morally, and spiritually by a parasite class whose goals for control of the world can’t even be understood as human. Indeed, transhumanism is a stated goal of these people.”

Last November Philip Zelikow and “the Covid Crisis Group” published a 352 page book, *Lessons from a Covid War, An Investigative Report*. The book went on sale April 23, 2023 and was launched April 24 in a [five hour presentation](#) at the National Academy of Medicine in Washington, DC. The launch of the book has lately gotten attention in the news.

By its emphasis on war, the book inadvertently confirms recent evidence uncovered by [Sasha Latypova and Katherine Watt](#) that the Covid psy-op was not a supposed public health emergency but a type of 5th generation warfare carried out by the US

Department of Defense against US citizens, and much of the rest of the world, in collusion with many other governments.

Who is Philip Zelikow? He was the director of the so-called 9-11 Commission appointed by the G.W. Bush Administration in 2002. He was the editor of the resulting *9-11 Commission Report*. He was and still is a University of Virginia history professor said to specialize in public myths and the effect of "catastrophic terrorism" in making abrupt changes in of the course of human history.

As we know, both myth and terror were in full play in the 9-11 and the covid operations. Zelikow was among the neocons of the Project for a New American Century which said in its "Rebuilding America's Defenses," September 2000, that it would take "a new Pearl Harbor" to motivate the American public to support the militarily aggressive US global hegemony that the Project called for.

Exactly a year later, 9-11 provided the neocon-controlled US government with a pretext for just such aggression against a list of Arab and Muslim countries that did not threaten US hegemony, but did happen to be enemies of the state of Israel, which the neocons happen to adamantly support. So many coincidences!

Twenty years later, Zelikow was called in for another coverup, this time unofficially. Under Zelikow's guidance 9-11 was painted as a series of tragic failures by the US government, the Pentagon, NORAD, and US intelligence agencies to either predict or prevent the hijacking of four passenger airliners by 19 nefarious hijackers. Using the same formula again, Zelikow assembled a group of 34 academic, medical, and government apologists – the "Covid Crisis Group" – to write the authoritative report on the US handling of the "Covid 19 pandemic." Once again. the entire US government was totally blindsided. It was found woefully inept, incompetent, and completely unprepared to deal with this terrible out-of-

nowhere attack.

Zelikow and his hand-picked authors leave no stone unturned in pointing out the failures of almost all the measures a helpless Uncle Sam took to deal with the “pandemic.” The problems listed by Zelikow’s mainstream mouthpieces were: “operational challenges,” lack of preparedness, “policy failures,” ignorance of the source of SARS CoV-2, the failure of Trump’s leadership in “Operation Warp Speed,” a “fragmented health care system,” and “poor communication” which led to poor “vaccine uptake” and a failure to prevent people being led astray by “misinformation.”

The solution offered by the Crisis Group: organize from the top down, globally, with a single authority, for the next predicted “pandemic,” much like what we’re hearing from the World Health Organization. This is not new thinking. It’s a copy and paste of the globalist agenda.

The strategy for covering up an attack by the US government on US citizens is to make it look like the government was a victim of the attack, not the perpetrator. That lie is facilitated by what sounds like a tough critique of government incompetence, crafted by the same people who were involved in the crime. This is like letting a murderer off the hook by hearing nothing but his apology for serious and reprehensible failures in stopping the murder, and forgetting that he committed the murder.

Of course, Zelikow’s exhaustive report passed over the pre-planning, the trail of predictive pharma patents, the economic devastation, the gigantic upward transfer of wealth, the government corruption, the psychological harm, the extensive injury to human health, the thousands of deaths caused by the US “response” to C-19 – all of it deliberate.

The report starts with the premise that a never-before-seen virus attacked us all at once and nobody knew what to do about

it. This is more or less how Zelikow and his previous stable of authors said 9-11 happened: our innocent nation was attacked from out of the blue; we were caught totally unaware. It is interesting to see how the public myth and the "catastrophic event" intertwine.

Zelikow is not just an academic observing that catastrophic terror changes history. He is an advisor to people who want to change history by creating catastrophic terror. He almost certainly advises on how to do it. Not only has he nicely tied his two academic theses together, he has won handsome rewards and respectability, AND completed the major deception of being the one to write the official history of the operations his handlers planned.

Zelikow is the consummate insider. Had he not appeared with this coverup masquerading as an earnest critique, we might have missed seeing that the neocons had to be involved in the covid operation just as they were in 9-11.

The Project for a New American Century was not a plan for a robust American empire. Just the opposite. It was a plan to use the US and its people as pawns in what was really the Project for a New World Order. America's contribution to that was to let itself be robbed physically, morally, and spiritually by a parasite class whose goals for control of the world can't even be understood as human. Indeed, transhumanism is a stated goal of these people.

Zelikow has tipped his hat with this monstrosity of establishment lies. He has announced he is involved, despite no one asking, and we can infer from this that the neocons were also involved.

"The wicked run when no one is chasing them," says the proverb. With all the power the neocons wield, most notable today in the Nuland- and Blinken-led attack on Russia, the neocons must of course be connected with the would-be masters

at Davos.

How clever this clique must think they are to have fooled the whole world. With such arrogance, how hard the fall.
