About Police for Freedom:

The Police for Freedom international movement was launched in February 2021. It was inspired by the Spanish association “Policías Por La Libertad”, which was formed in 2020 to improve overall societal wellbeing in these difficult times – both for citizens, as well as members of the police, firefighters, security personnel and the military.

The mission of this movement is to re-humanize our societies, bringing back trust and unity between the security forces and the people. The peaceful marches, events, campaigns and content created by Police For Freedom aim to educate people about their human rights, civil liberties, constitutional rights as well as the ethical code of conduct for the police and security forces.

Members of Police for Freedom are colleagues from different occupations who want to continue to carry out their work based on personal and professional ethics, without being influenced by fears, deceptive narratives, immoral rules or differences of opinion.
