## [The Flagrantly Fabricated Ferguson Phenomenon](#)

I've avoided getting into this because it's so goddamn obvious, but I've had some requests regarding how I see this "news". There's nothing new about it – a convenient ignition point sparked by a lone incident, resulting in expected protest and deliberately inflamed chaos and media mind-pumping. Same old, same old. When will humanity wake up, I don't know.

I understand the outrage. Not only was there another example of the mindless cop killer meme we see played out daily "subduing" an unarmed suspect by outright killing hm, but rightfully enraged citizens are treated like mindless savages in a prison ground. The fact that they've been caught [bussing in looting agent provocateurs](#) to make sure this conflagration gets sufficient fuel should make the hair on people's necks stand up, but if they haven't seen the obvious until now they'll likely be blind to these reports as well.

All while as the razor wire fences and military turrets of the totalitarian state get erected around them.

And it's playing out as hoped. The trigger this time is the racial card. Anything to divide and conquer. Not only are Americans freaked out by Mexicans and Central Americans being openly escorted over their borders, now the next enemy is black people, the seething cauldron of "social benefit scum" as many view them. What a set up and button pusher.

## **The Obvious Militarization Madness Reinforcement**

I don't mean to come across cavalier about this tragic phenomenon unfolding, but it's clear as glass. That this area of Missouri was recently beefed up with "donated" military equipment is no mere coincidence. There were/are several other staged areas where this event will or could have transpired but this one went off. As hoped.

Perfect. Time to set the meme and the theme. We need a strong, ridiculously strong armed militarized police force for just such occasions. After all, society is under attack and they're here to protect. Break out the sound weapons and other weird stuff, let's get Americans used to our "protective" technology. Subvert and subdue as humanity watches on, all the while onlookers are subsequently processing the mainstream bullshit propaganda and justifying its own inaction and complacency in the face of their impending fate at the hand of their controllers.

The words of Reverend Martin Niemöller come to mind:

*"First they came for the communists, and I did not speak out—because I was not a communist;  
Then they came for the socialists, and I did not speak out—because I was not a socialist;  
Then they came for the trade unionists, and I did not speak out—because I was not a trade unionist;  
Then they came for the Jews, and I did not speak out—because I was not a Jew;  
Then they came for me—  
and there was no one left to speak out for me."*

## **Enter ISIS Conditioning**

This enemy creation and fabricated terrorist programming has gone on for millennia, and most recently since the world wars. Following those staged conflicts it was the "cold war" against

the aggression of communism. Today it's the Muslim extremist groups, created and promoted by these same controlling manipulators. This latest [ISIS fixation and resultant drum beating](#) is a desperate attempt for further inflaming western societies and their continued clampdown. Politicians, current and past, and dutiful government and media spokespeople, are warning of massive attacks inside western countries by the boatload now and these same trigger happy mindfucked police are now told to be on the [look out for ISIS elements activating in the west](#).

Getting the picture yet?

From the meteoric rise of a supposed massively financed movement to fake beheadings, the virtually fantasmagoric rise of the ISIS entity humanity is duping humanity. Ferguson is a side show but an important one in the fear and agitation agenda. "It's here – it's home – and it can erupt at any time.." Very psycho-scientific, very Orwellian and very sinister.

Wickedly drawing the conclusion for us that anything against the state is similarly destructive and status quo threatening, and broadening yet again their "national enemy" base. Just wait till you see where this is heading to. It isn't pretty.

But it's all a limp, projected illusion...it's empowerment depending on who and how many buy into it.

Follow the Links but Don't Get Sucked In

The Ferguson psy-op has many facets and functions. Not the least of which is conditioning. If you follow alternative news you'll see many [revealing](#) videos and some terrific commentary on the ongoing engineered conditioning there. I'm not too excited about it as it's just another symptom and step towards martial law, but it could be an important link for many if they haven't connected the dots yet of the plethora of previous US psy-ops.

Find out for yourself.

Draw informed conclusions, then act on them. Your awareness will become a dynamic, not just a place of observation.

Then activate accordingly. Our awareness and activation is the key to dissolving this matrix of deceit and deception.

Don't shirk it. We each make a massive difference.
