

Record Snow and Record Heat. What is Really Going On?

Question: What is the most essential and immediate requirement for all of us to remain alive? The air we breathe.

...factually inarguable for anyone who truly examines the data – the US government, the bankers, the military-industrial complex all are nothing more than state-sponsored mafia. Ultimately state-sponsored because it is the state, the government, that facilitates – that allows – the current paradigm to continue and all those that are part of the organizations I just made mention of are part of that crime syndicate.

Wild weather continues with record September snow in the Northwestern US and record heat in the Southeastern US. What is going on?

How can we wake the masses to the converging challenges that we collectively face? Social media is censoring credible sources of independent data, so it's up to us to sound the

alarm at a grass roots level. Share [credible data](#) from a [credible source](#), [make your voice heard](#), make every day count.
