What actually happened on the day Donald Trump was almost assassinated... Or was he?

Was all of it staged to 'earmark' him for his next big task, and if so, by whom? Or was it a real attempt on his life, brought forward by hidden political forces? Could this actually be tracked all the way back to 1995? And who is Donald Trump actually?

World renowned researcher Ole Dammegard, who has predicted and/or connected over 70 false flags, will lead you through an extremely detailed powerpoint-presentation, revealing the incredible truth surrounding this multi-layered event. Please be warned, you may not be able to look at the world the same way after this mind-blowing exposé.
