UFOs: Ours or Theirs? Michael Schratt on the Richard Dolan Show

July 1, 2019

Since flying saucers first entered our public awareness in the 1940s, people have debated whether these objects are extraterrestrial or purely man-made. Ours or theirs.

Michael Schratt is a private pilot, military historian, and expert in aerospace/aviation with a deep knowledge of UFO history. He offers his perspective on this important question.

In addition, Michael has used his own skills in CAD and Solidworks, as well as contracting graphic artist professionals, to recreate fascinating and forgotten cases in UFO history, several of which are displayed here.

Richard Dolan is one of the world's leading researchers and writers on the subject of UFOs and believes that they constitute the greatest mystery of our time.

He is the author of two volumes of history, UFOs and the National Security State, both ground-breaking works which together provide the most factually complete and accessible narrative of the UFO subject available anywhere.

He also co-authored a speculative book about the future, A.D. After Disclosure, the first-ever analysis not only of how UFO secrecy might end, but of the all-important question: what happens next?
