

Russian Roulette: Unproven COVID 'Vaccine' Gene Transfer Technology

[Russian Roulette: Unproven COVID 'Vaccine' Gene Transfer Technology](#)

by [21st Century Wire](#)

December 29, 2021

Since the COVID-19 vaccine roll-out began in late 2020, government, mainstream media and Silicon Valley censorship departments has been working overtime to try and obfuscate the fact that the experimental mRNA injections are an unproven, genetically-modified gene therapy compound.

Despite a desperate effort by Gates-funded [Fact-Checkers](#) to convince that public that the unproven mRNA technology is “not gene therapy”, the [scientific literature clearly shows](#) that mRNA is in fact gene therapy, or rather *gene transfer* technology.

The so-called ‘vaccines’ made by **Pfizer** and **Moderna** use oily envelopes called *lipid nanoparticles* to insert genetically-modified material called messenger RNA (mRNA) blueprint for a toxic spike protein into a person’s cells which then become mini-factories for the GMO toxic protein. The **Johnson & Johnson** works slightly different, using a double-stranded [DNA](#) inserted into an inert adenovirus. The DNA also contains the instructions for building the toxic spike protein.

Pharmaceutical firms claim this genetic cocktail protects people from COVID-19, but upon closer examination their brash

claims of “90% effective” [are clearly fraudulent](#). Rather than require drug manufacturers to use proper metrics to prove real effectiveness, government regulators have chosen instead to look the other way and allow the fraud to continue unabated.

To date, in the United States alone, there have been [1,842,457 adverse reactions and injuries](#) reported following these experimental injections. These number continue to grow each week.

As the new pharmaceutical ‘vaccine’ products have been intentionally rushed through the normal safety and regulatory procedures before being deployed into the population under the aegis of an “emergency use authorization” – and with zero medium or long-terms clinical trials or studies – then these are by definition ***experimental*** products.

What will be the results of this mass-human experiment, and who will ultimately be held responsible for the growing list of casualties? *Watch:*
