

September DOJ Report Lists 200 Vaccine Injuries and One Vaccine Death Compensated During Six-Month Period

[September DOJ Report Lists 200 Vaccine Injuries and One Vaccine Death Compensated During Six-Month Period](#)

by [Brian Shilhavy](#), *Health Impact News*

September 10, 2020

The federal government [Advisory Commission on Childhood Vaccines \(ACCV\)](#) under the U.S. Department of Health and Human Services met on September 4, 2020, and the Department of Justice reported that during a 6-month period from February 16th through August 15th this year, 200 vaccine injuries and one death were compensated through the *National Vaccine Injury Compensation Program* (NVICP).

You can [read the full report here](#).

The NVICP was started as a result of a law passed in 1986 that gave pharmaceutical companies legal immunity from being sued due to injuries and deaths resulting from vaccines.

Today, anyone suffering from a vaccine injury or death must sue the U.S. Government and go up against their top attorneys.

So far in 2020 the NVICP has paid out \$200 MILLION in damages due to vaccine injuries and deaths. ([Source](#).)

These damages were caused primarily by the annual flu vaccine, and other childhood vaccines that have gone through the FDA approval process.

What will these numbers look like after the COVID vaccines are fast-tracked?

We will probably never even know, because [The Public Readiness and Emergency Preparedness Act \(PREP Act\)](#), which was invoked because of the COVID “Pandemic” earlier this year, will absolve the U.S. Government from even having to try cases and award damages to any injuries or deaths related to a COVID vaccine.

See: [PREP Act Invoked Nationwide for the First Time in U.S. History – Will Martial Law Follow?](#)

The mantra that the U.S. Government, and the Pharma-funded corporate media communicates to the public, that vaccines are “safe and effective,” is a total lie.

The public is largely unaware of these reports listing vaccine injuries and deaths compensated by the U.S. Government, even though they are published publicly on the [HRSA website](#), and as far as I know, *Health Impact News* is the only one that publishes them.

See [past reports here](#).

AstraZeneca Halts COVID Vaccine Trial Due to Transverse Myelitis, A Common Vaccine Injury

It was announced yesterday (9/8/20) that UK-based AstraZeneca, one of the leading companies fast-tracking a COVID vaccine, halted Phase 3 trials due to a negative adverse reaction among the test participants.

Further details have emerged today as to why they halted testing. [According to STAT News:](#)

The participant who triggered a global shutdown of AstraZeneca’s Phase 3 Covid-19 vaccine trials was a woman in the United Kingdom who experienced neurological symptoms consistent with a rare but serious spinal inflammatory

disorder called transverse myelitis, the drug maker's chief executive, Pascal Soriot, said during a private conference call with investors on Wednesday morning.

This is pure spin and propaganda, because among the few vaccine injuries that ever get reported to the NVICP, transverse myelitis is COMMON!

In the quarterly DOJ reports, compensations for transverse myelitis as a result of vaccines, is listed as TM, and almost always a result of the Flu Shot.

In the [current report from last week](#), seven of the cases settled were for transverse myelitis. In the report from March of this year, there were 5 cases of transverse myelitis settled.

You can go through [past reports here](#), and see how each report always has several cases of transverse myelitis.

Will the Public Ever Know How Many People are Injured and Killed by Vaccines?

Vaccines cause injuries and death – this is a public health fact in spite of the corporate media and Big Tech's attempts to censor these facts.

In the few instances where these facts are even mentioned, they are brushed aside with the belief that they are rare, and that the risk is worth it because more people die from the diseases being vaccinated against.

So the logic is that vaccines are necessary for the “greater good.”

Leaving aside the claim that vaccines are actually effective in preventing these diseases, which the scientific evidence actually suggests is a “belief” and not a fact based on science, the claim that vaccine injuries and deaths are “rare”

really is not backed up by any verifiable data.

In November of 2014, the Government Accounting Office (GAO) issued the first [report](#) on America's "Vaccine Court," known as the *National Vaccine Injury Compensation Program* (NVICP), in almost 15 years.

Congress gave the pharmaceutical companies immunity against lawsuits for injuries or deaths resulting in vaccines in 1986. Prior to this time, there were so many lawsuits pending against pharmaceutical companies for injuries and deaths due to vaccines, that the pharmaceutical industry basically blackmailed congress and told them that if they did not grant them legal immunity against the liabilities of vaccines, that they would quit making them.

These vaccine products cannot survive in a free market, they are so bad.

The November 2014 GAO report criticized the government for not making the public more aware that the *National Vaccine Injury Compensation Program* exists, and that there are funds available for vaccine injuries. Therefore, the settlements represented by vaccine injuries and deaths included in the DOJ report probably represent a small fraction of the actual vaccine injuries and deaths occurring in America today.

The U.S. government keeps a database of reports documenting vaccine injuries and deaths called *The Vaccine Adverse Event Reporting System* (VAERS). The problem is that very few medical officials ever report vaccine injuries or deaths, either because they are not trained to recognize them, or due to pressure within their profession to not report them. To admit that vaccines do cause harm is professional suicide for most doctors and medical professionals.

Hence, the quarterly DOJ report on vaccine cases only represents a tiny fraction of the actual cases that exist.

And now with the PREP Act invoked injuries and deaths due to a new fast-tracked COVID vaccine will not even be allowed to file for compensation with the NVIC.

So if people start dying in mass, and if new injuries result from this COVID vaccine, Big Pharma, Big Tech, and the U.S. Government will undoubtedly blame the injuries and deaths on either the second wave of SARS-CoV-2, or some new plandemic that will lead to far more tyrannical actions than anything we have seen so far.

Welcome to the [New World Order](#), where a massive reduction of the world's population is the goal, and where mass deaths are already expected this fall.
