"We are all inmates in a global asylum; the bars that enclose us are visible to any who choose to see."

Dane Wigington—Creator and lead researcher for [Geoengineering Watch](#)

I will preface my comments here by accepting the fact that this subject matter is foreign to many, while being ignored by most. Those in the past who entered into this conversation were exposed to extreme criticism, name calling, scathing reproach, and viewed as insane conspiracy nuts. I have experienced this myself on many occasions. This subject is complicated, and geoengineering can be used in any number of ways to cause great harm, such as weather manipulation, a myriad of extreme health problems, sickness, and death. It can also be used as a bioweapon, and can be used against those exposed to these toxic concoctions of nanoparticles through controlling psychological and physiological means. This

initial essay is an overview, but I hope to offer more concentrated and in-depth analysis in a later writing.

Weather geoengineering is considered very controversial, but it is not controversial in any regard; it is a fact, and has been happening for decades. Some claim, and I think correctly, that this is the biggest threat to life on this planet. It is not that normal human activity is destroying the health of the earth due to the common misunderstanding of 'man-made global warming' believers, but weather geoengineering is most definitely and aggressively harming every lifeform on this planet. All plants and animals, including of course humans, have been, and are being, devastated by massive amounts of metals, toxic chemicals, and nanoparticles being let lose in the skies and atmosphere of this country and the world; this not even considering all the other poisons in our food, daily use products, and massive spraying of poisons for weeds, yards, highways, and agriculture.

Look around and consider the new era of constant droughts, wildfires, floods, soil destruction, root system collapse, unnatural tree and forest devastation, eradication of bees and insects, loss of vital plankton in our oceans, destruction of many waterways and reservoirs, and many other unnatural catastrophic events. This is not an endorsement or acceptance of any fraudulent 'climate change' agenda levied against the population by the state, it is simply the reality of purposeful geoengineering policies by the state meant to achieve multiple totalitarian agendas, and in the process, great harm to all has been the result. This was not necessarily what was initially sought by the ruling 'elites' in my opinion, but the very adverse consequences have been accepted in order to continue the drive toward global tyranny in the form of creating a one world government.

For once and for all, let us accept and understand the difference between a harmless contrail and a chemical trail of nanoparticles made up of metals, toxins, plastics, and any

number of other harmful elements, purposely sprayed into the atmosphere in order to block sunlight and change the natural order of things.

Contrails are simply condensation or vapor trails (ice crystals) formed in rare circumstances under very particular conditions where high moisture is evident in jet exhaust, and cold and humid conditions are present.

“With very few exceptions, we should not see anything behind the jets in our skies that are fitted with high bypass turbofan jet engines. High Bypass turbofan jet engines are fitted on all commercial aircraft and all military tankers. High bypass jet engines are nearly incapable of producing a “condensation trail” except for the most extreme conditions, and even then, any visible trail should not be more than a few seconds at most.”

Chemical trails (Chemtrails) contain aluminum, barium, and strontium, among many other chemicals, plastics, and other toxic elements, many in the form of harmful nanoparticles. As retired U.S. Air Force Brigadier General Charles Jones stated concerning the sprayed trails in the sky:

“When people look up into the blue and see white trails paralleling and crisscrossing high in the sky, little do they know that they are not seeing aircraft engine contrails, but instead they are witnessing a manmade climate engineering crisis facing all air breathing humans and animals on planet Earth... Toxic atmospheric aerosols are used to alter weather patterns, creating droughts in some regions, deluges and floods in other locations and even extreme cold under other conditions.”

This is of course, only the tip of the iceberg. Besides all the harm caused to humans, animals, trees, and all plant life, including the foods grown in the now tainted soil, the death

and extermination of insects, birds, bats, and vital oxygen-generating plankton, the earth itself is being decimated. In other words, this is a most active threat, and it is real. This is not the 'climate change' discussed by politicized 'environmental' organizations, most all of whom are largely state funded, counterfeit, and bogus entities. This is a real threat that is lied about and purposely hidden by all those pretending to care for the earth. By ignoring, whether intentional or not, the real risk that is right before their eyes, they continue to propagandize about the common people in general being at fault, hoping to place false blame in order to advance nefarious agendas.

Global weather geo-engineering projects are a war against all of humanity, and one of the biggest coverups of all time in my view. The danger to us all is astronomical, and much harm and destruction has already occurred. If this was common knowledge, as it should be, maybe this collective group of fools called the masses, would actually stand up and do something to stop this insanity. It is not like this just happened recently, as weather modification has been pursued and implemented for at least [60 years and beyond](#). Our skies and the skies of the world are choking due to constant spraying of sun-blocking elements meant to change weather patterns so as to justify total control of all human activities, to fatally harm the natural growing and production of food sources, to cause sickness and death to large swaths of humanity to affect depopulation, and to implement an exhaustive system of total control based on the political lie of what is commonly called 'climate change.'

Climate manipulation, climate warfare, and environmental destruction are taking place, but this is being done in the name of globalism and a one world governing system. It is not due to driving cars, taking trips, or turning on an air conditioner, it is due to the master class of rulers and their pawns in government, all government bureaucracies, and the

mainstream media owned and controlled by this same evil ruling class and its partnered organizations. Once again, most everything considered real by the masses, is completely backward and the opposite of anything honest and sane.

Recently, Spain admitted to spraying chemtrails under a secret U.N. program. The Spanish government authorized biocide spraying for 'disinfection' purposes, all hidden, and without notifying the citizenry. This was secret experimentation on the public, without any knowledge or caring as to how the Spanish people would be affected. The Spanish weather agency, the AEMET, said that over 50 countries were spraying to modify the weather, but in truth, this spraying is happening worldwide.

The most major tenet of this grand assault on humanity at the hands of the manipulative state, is advancing the 'climate change' agenda, so that total control over all of humanity and all property, can be solidified with very little resistance. It is all based on false fear, as always, but the state players in their haste to complete this takeover coup, have actually through climate and weather manipulation, also placed themselves in harm's way. The plot was allowed to continue because multiple state agendas were being sought, and it is still in place today, even with the risks to all due to this horrendous plan. Oh, what a tangled web they weave.

When these weather geo-engineering tactics were used during the Vietnam War against a people that did nothing to warrant any attack by the evil U.S. empire, hell was unleashed on that country. They are still dealing with the effects of the heinous atrocities inflicted upon them by American forces. Weather manipulation was used to bring much more rain during the monsoon period so as to stop movement. Spraying all the foliage with Agent Orange to kill all plants and undergrowth so that the Vietnamese would have nowhere to hide, which also destroyed most efforts to grow food, and caused horror for all in that country and others. In addition, some of these same

chemicals were used to burn, maim, and kill civilians and military alike, which also included their animals meant for work and food. Of course, cancer, immune system destruction, birth defects, and many other health maladies, were obvious results of this inhuman chemical warfare.

With continued spraying and weather geo-engineering here by 'your' government and those controlling 'your' government, you can look forward to the same fate as was exacted against the innocent people of Vietnam. The truth you see, is that this is a war against all of you, and by 'your' own country's government that you voluntarily allow to exist and rule over you. Stop it now, and abolish this system of governmental control, or settle in for a life of slavery and death at the hands of this ruling cabal.

“Historically, modern warfare, waged by and between readily identifiable nation-states or assemblages of nation-states, results in environmental damage. Today, however, large segments of humanity and other biota are at risk from global environmental warfare, undertaken through deception and deceit by undisclosed globalist-type factions who remain in the shadows.”
