No radio station will accept this piece. Democracy?
Riiiiiiight.

*Be aware. Come alive. Be prepared for the level shift. Be the
explosion you want to hear.*

Transcript:

When you can't love, you hate.
When you can't build, you destroy.
When you're ignored, you scream.
When you can't tell the truth, you lie.
When you can't reason, you act.
When no one will follow you out of admiration or
respect, you compel.
When you can't live, you kill.
As the totalitarian horror unfolds before our eyes,

only the willfully blind will ignore it.

Only those who refuse to think will fail to grasp its implications.

Only the irretrievably corrupt will embrace it.

Stop the lock up.

Now.
