July 24, Hyannis

It is time to recognize that mandates for quarantine, “social distancing”, face covering, and the engineered gene injections being called “vaccines” are not about protecting public health. Public health is actually being *harmed* by these measures. So what is really going on? One view is that our government has been so corrupted by the pharmaceutical industry that government itself is pushing people to take pharmaceutical products even when these products have proven to be unsafe. There are precedents for this with the MMR, DPT, HPV, flu and other vaccines. Overall, vaccines have harmed, not helped, the human immune system. They have degraded the health of our society to such an extent that almost half of the children in the US today have some form of [chronic illness](#) – all for the sake of pharmaceutical company profits.

But a wider agenda is also apparent. That agenda is totalitarian social control implemented through the invention of a worldwide pandemic “emergency” which would inspire enough fear in people to make them give up their rights, separate them from others, separate them from their own instincts, and even from their spirituality. This war of the globalists against all of humanity has been cynically named “the great reset.”

Klaus Schwab,, founder of the World Economic Forum and author of The Great Reset. (Does it look like Mr. Schwab has a happy future in mind for us?)

Wars are fought for economic, not moral, reasons. This war is no different. Huge amounts of money have been transferred to the wealthy as a result of attacks on small business and the middle class and the further impoverishment of the poor. The wealthy want money and control of resources, as always. They don't care if people are dying. In fact, for eugenicists like Bill Gates and other globalists who think they know best what is good for the world, depopulation is a desired goal. This may be why the authorities don't seem to care about long-term effects of the covid injections, or about harm to reproductive organs and miscarriages that are already happening. Against all reason, pregnant women are being encouraged to get the

shot. So are children. In the face of such criminality, there is nothing left for us to do but protect ourselves *from* our government. Whether it is working for big pharma or the globalists, we know for sure government isn't working for us.

According to the [latest data](#) from the Center for Disease Control and Prevention's Vaccine Adverse Events Reporting System (VAERS), "between Dec. 14, 2020 and July 30, 2021, a total of 545,338 total adverse events were reported to VAERS, including 12,366 deaths. There were 70,105 reports of serious injuries, including deaths, during the same time period." VAERS is known to capture only a small percentage of adverse events, as they are greatly under-reported. And the CDC, representing the pharmaceutical industry (not us), has no interest in finding out or publicizing accurate numbers, or in following up on reports. So we can assume there have been many more deaths and injuries than cited above. There is already enough evidence that the CDC is committing a crime just allowing covid injections to continue, much less promoting them.

## Search Results

From the 7/30/2021 release of VAERS data:

**Found 545,338 cases where Vaccine is COVID19**

Table

 Event Outcome	  Count	Percent
Death	12,366	2.27%
Permanent Disability	14,251	2.61%
Office Visit	92,526	16.97%
Emergency Room	56	0.01%
Emergency Doctor/Room	67,985	12.47%
Hospitalized	45,902	8.42%
Hospitalized, Prolonged	134	0.02%
Recovered	185,537	34.02%
Birth Defect	324	0.06%
Life Threatening	12,193	2.24%
Not Serious	219,562	40.26%
<b>TOTAL</b>	<b>† 650,836</b>	<b>† 119.35%</b>

† Because some cases have multiple vaccinations and symptoms, a single case can account for multiple entries in this table. This is the reason why the Total Count is greater than 545338 (the number of cases found), and the Total Percentage is greater than 100.

The purpose of standing out August 28 will be to do what we can to save more people from being [harmed](#). The mass injection program needs to be stopped now. We must also stand up for children who may be forced to wear masks in the upcoming school year. Masks don't protect anyone; their purpose is to condition us to accept medical tyranny and perhaps an eventual social credit score system, starting with "vaccine passports." Using children as pawns to achieve this goal is frankly evil. We need to expose the perpetrators of this crime against humanity and see to it that they are prosecuted. If we don't, the oppression will only continue.

This call is for a peaceful, non-partisan protest following up on our many previous demonstrations. Bring large-letter signs or banners with your message.

**We stand for:**

– **the right to remain human** – i.e., not to be genetically modified or made "transhuman." The openly declared

transhumanist agenda of the Great Reset and its plan for “a fusion of our physical, digital and biological identity” is absolutely insane.

- **the right to live.** These injections are killing people. We obviously have the right to reject them for ourselves and our children

- **the right to the pursuit of happiness.** Happiness will not be achievable if we have lost our health to medically induced chronic disease.

- **our right to refuse medical interventions.** No to the de facto vaccine mandate by which the state of Massachusetts and the federal government encourages employers, colleges, and businesses to require vaccination. certificates (or torture us with testing). No to explicit vaccine mandates likely to follow the corrupt FDA’s approval of the spike protein clot shots.

- **ending mask requirements** on public transportation, in healthcare facilities, and especially in schools. Forcing children to wear masks is child abuse.

- **the right to bodily autonomy.** No one should be forced to take a vaccine, wear a mask, be swabbed, tested, or scanned

- **the Nuremberg code and the right to informed consent.** No substance should be injected into anyone’s body without their full understanding of all possible harmful effects (which are as yet unknown with experimental mRNA injections). There should be no negative consequences should we refuse a medical intervention.

- **parental rights.** The state has no right to bypass parents’ authority on whether their minor child should wear a mask, be tested, or be given any pharmaceutical product.

- **the right to education.** Education at K-12 schools,

universities, and colleges should not be withheld as leverage to enforce government medical decrees.

– **the right to freedom of movement.** This right is violated when any kind of travel requires masking, testing, or proof of vaccination.

– **“the right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures” (4th Amendment).** This is our right to privacy . Our vaccine status and medical history is no one’s business.

– **the right to due process:** Open meeting laws continue to be illegally suspended in Massachusetts “due to coronavirus” and our elected officials seem to like it that way. Virtual meetings undermine democracy. Government-sponsored medical procedures without informed consent, and government edicts bypassing the legislative process are also a violation of the due process clauses of the 5th and 14th Amendments.

– **the 1st Amendment freedom of speech and press.** End the blatant Soviet-style government-media censorship of people with dissenting views about the covid narrative

– **the right to equal protection of our civil and Constitutional rights.** Refusal of service by any transport company, public venue, ticket vendor, grocery store, or other business on the basis of arbitrary “vaccine passports” is a form of discrimination which we should be protected from under the law. Loss of this right amounts to coercion through medical tyranny and will lay the groundwork for a “social credit score” system in which all citizens do not have equal rights.
