~~~ Folks, this is Bill Ryan here.

If I'd made this quality of documentary video myself, I'd be proud. It came from tmcleanful, who's a trained journalist (and evidently so, too).

Please subscribe to HIS channel. ☐

I posted against his original video, which is here:

(this is re-uploaded with his permission and encouragement)

I just posted on the Avalon Forum: “I highly HIGHLY recommend this new video. One of the very best I've seen about this entire thing. It's a balanced, sane, detailed, methodical, well-articulated, well-researched, fully-referenced summary of the whole saga.”

And I wrote to a friend: “I think it's actually THE best video I've seen or heard (for most people out there)... including my own two with Rich Dolan. He must have spent a lot of time on it. It's EXTREMELY well done. Needs to be posted far and wide.

It's almost like a last word on the whole story, but it's totally, totally balanced and grounded.”

Here is tmcleanful's original descriptive text:

~~~ Yes I'm interested in ufology.

From what I can tell, there appears to be a “there” there. Have I drawn any conclusions regarding what that is? No. But I find the whole thing fascinating, regardless of what the truth turns out to be, if that’s ever revealed.

But I have a strong aversion towards people who take advantage of the openness and good nature of regular folks to advance themselves.

I created this video for the UF0 Proof channel, and a “UF0 Proof” version of it may appear there soon, but given the current profile and significance of this topic within ufology I wanted to get it out now and it seems perfect for my new Strange Tales series.

Whether you are into ufology or reject the whole thing as nonsense, I think you will be informed and hopefully entertained by this video.
