Published on Nov 11, 2015

Megalithic researcher Hugh Newman investigates giants and megalithic structures from around the world asking – did giants build the ancient stone circles, pyramids and earthworks? Was it the Nephilim, Gog & Magog, King Og of Bashan, or the Titans of ancient Greece? Hugh is a regular guest on History Channel's 'Search for the Lost Giants' and 'Ancient Aliens' and has co-authored the new book with Jim Vieira: '[GIANTS ON RECORD](#)'.
