Alright, I may as well weigh in on this story and join the chorus with my spicy hot enchilada take.

BREAKING: [@Pfizer](#) Exploring "Mutating" COVID-19 Virus For New Vaccines

"Don't tell anyone this...There is a risk...have to be very controlled to make sure this virus you mutate doesn't create something...the way that the virus started in Wuhan, to be honest." [#DirectedEvolution pic.twitter.com/xaRvLD5qTo](#)

They can afford to be intellectual lightweights since they

appear to be backed by the full might of the US DOD and nobody wants to tangle with the Monster.

They will say, "Look we were told to do it this way", and I bet this Jordan dude doesn't even know about the Operation as Sasha said the FDA worker bees didn't know that they were doing fake trials.

Sasha and K-Dub both covered this as well.

[Why all the breathless finger-wagging at Pfizer?](#)

This angle: effectively, Pfizer Bad, Grifters gonna grift, makes a lot of people happy for a variety of reasons.

The dominant reason is that nobody wants to pull on the string that opens up the door to the vault of the DOD House of Horrors.

Once you start pulling on that string, there is no stopping point.

And you will have to keep going and in the process of keeping going you will have to plow through Donald Trump's actions, Barack Obama's actions, and keep right on going to the neo-Cons who did 9/11 and anthrax and then all the various actions all over the world since WW2 and JFK and Operation Northwoods and Lyme Disease and did all those emerging viruses in Africa really occur naturally and there is nobody involved in public life in America for 70-80 years who is going to come out great.

The entire fake two party paradigm will have scores of villains with guilty looks on their faces.

The entire Mockingbird Media that decides that Donald Trump is

“Presidential” when he drops some bombs somewhere will be absolutely decimated.

Start pulling on this string and it will decimate Jabs Bad Island, aka Half Measures Island’s world views.

Far better to just “let sleeping dogs lie” and go with, “Look at this corporate corruption” and anyway Russia and China are evildoers and are plotting against us and we still need to keep the Biomedical War Stuff operational and expand it and go watch some more football and Shut the Fuck Up adults are talking.

Nobody really wants to do this because the stakes are very high and the cognitive dissonance is and will be off the charts. Code Red.

Nobody wants to accept that almost everything they were led to believe is a lie.

That yes, Virginia, there is a Santa Claus, and he’s a fucking sociopathic genocidal maniac.

Yes he is. And Socio-Santa is doing it right in front of your face and trolling you in the process.

They still need THIS:

So The Monster that runs our nation and shot a sitting President in the head and then murdered a bunch of witnesses

will thank you to just focus on these Bad Pharm people and pay no attention to those Monster Contracts and those biolabs all over the world and anyway even if we did tell them to do it it's only because we love you and we are an Abusive Parent and America is now a completely shellshocked Stockholm Syndrome Battered Citizen Syndrome Identify with the Aggressor dysfunctional family.

So protect that Monster at all costs, because the Monster only hits us because he loves us.
