

The Mount Rainier Cluster of Missing People

[The Mount Rainier Cluster of Missing People](#)

by [David Paulides](#), [Canam Missing Project](#)

July 3, 2020

David Paulides presents a series of unusual disappearances in Mount Rainier National Park.

Three different disappearances in 8 days in June of 2020 mark a strange span of time in one of Washington States' most beautiful parks.

This national park has been identified by David Paulides' research as a geographical cluster zone.
