Why do governments salute when he predicts a pandemic and tells them to lock down their countries?

Does anyone care about his past?

Why does he still have a prestigious job?

Who is he connected to?

Note: I'm republishing this piece, from 2020, so people don't forget the criminal and the crime...

Neil Ferguson, through his institute at London's Imperial College, can call the shots on a major percentage of the global population.

He's Mr. Genius, when it comes to projecting computer models of epidemics.

Fellow experts puff up his reputation.

[According to the Business Insider \(4/25/2020\)](#), "Ferguson's team warned Boris Johnson that the quest for 'herd immunity'

[letting people live their lives out in the open in the UK] could cost 510,000 lives, prompting an abrupt U-turn [massive national lockdown in the UK]...His simulations have been influential in other countries as well, cited by authorities in the US, Germany, and France.”

Not only cited, not only influential, but swallowed whole.

Business insider continues: “On March 23, the UK scrapped ‘herd immunity’ in favor of a suppression strategy, and the country made preparations for weeks of lockdown. Ferguson’s study was responsible.”

There’s more. A lot more.

Same BI article: “Dr Deborah Birx, coronavirus response coordinator to the Trump administration, told journalists at a March 16 press briefing that the Imperial paper [Ferguson’s computer projection] prompted the CDC’s new advice to work from home and avoid gatherings of 10 or more.”

Ferguson, instigator of LOCKDOWN. Stripping away of basic liberties. Economic devastation.

So let’s look at Ferguson’s track record, spelled out in the BI piece:

“Ferguson co-founded the MRC Centre for Global Infectious Disease Analysis, based at Imperial, in 2008. It is the leading body advising national governments on pathogen outbreaks.”

“It gets tens of millions of dollars in annual funding from the Bill & Melinda Gates Foundation, and works with the UK National Health Service, the US Centres for Disease Prevention and Control (CDC), and is tasked with supplying the World Health Organization with ‘rapid analysis of urgent infectious disease problems’.”

Getting the picture?

Gates money goes to Ferguson.

Ferguson predicts dire threat from COVID, necessitating lockdowns—thus preparing people to accept a vaccine. The vaccine Gates wants.

Ferguson supplies a frightening computer projection of COVID deaths—to the CDC and WHO. Ferguson thus communicates a rationale for the Gates vaccine plan.

National governments surrender to WHO and CDC. LOCKDOWNS.

Business Insider: “Michael Thrusfield, a professor of veterinary epidemiology at Edinburgh University, told the paper he had ‘déjà vu’ after reading the [Ferguson] Imperial paper [on COVID], saying Ferguson was responsible for excessive animal culling during the 2001 Foot and Mouth [mad cow] outbreak.”

“Ferguson warned the government that 150,000 people could die. Six million animals were slaughtered as a precaution, costing the country billions in farming revenue. In the end, 200 people died.”

“Similarly, he [Ferguson] was accused of creating panic by overestimating the potential death toll during the 2005 Bird Flu outbreak. Ferguson estimated 200 million could die. The real number was in the low hundreds.” HELLO?

“In 2009, one of Ferguson’s models predicted 65,000 people could die from the Swine Flu outbreak in the UK – the final figure was below 500.”

So you have to ask yourself, why would anyone believe what Ferguson has been predicting in this COVID hustle?

Are his fellow experts that stupid?

Are presidents and prime ministers that stupid?

And the answer is: This is a monumental covert op; some people are that stupid; some are caught up in the op and are afraid to say the emperor has no clothes; some are aware of what is going on, and they want to destroy national economies and lead us into, yes, a new world order.

Gates knows he has his man: Ferguson. As the recipient of tens of millions of dollars a year from the Gates Foundation, Ferguson isn't about to issue a model that states: COVID is nothing to worry about, let people live their lives and we'll be all right. The chance of that happening is on a par with researchers admitting they never properly identified [a new virus as the cause of illness in 2019](#), in Wuhan.

In order to justify injecting every man, woman, and child in the world with heavy metals, synthetic genes that alter genetic makeup, a host of germs, and who knows what else, Gates needs A STORY ABOUT A DEADLY VIRUS THAT NECESSITATES SHUTTING DOWN AND IMPRISONING THE PLANET, ACHIEVING A CAPTIVE AUDIENCE.

He's got the story, all dressed up in a computer model, composed by a man with a past record of abject and devastating failures.

Neil Ferguson is the ghost in the machine. The machine is the World Health Organization and the CDC. The man behind the ghost is Bill Gates.
