October 8, 2020

The CDC document is titled, ["CDC 2019-Novel Coronavirus \(2019-nCoV\) Real-Time RT-PCR Diagnostic Panel."](#) It is dated July 13, 2020.

Buried deep in the document, on page 39, in a section titled, "Performance Characteristics," we have this: "Since no quantified virus isolates of the 2019-nCoV are currently available, assays [diagnostic tests] designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA..."

The key phrase there is: "Since no quantified virus isolates of the 2019-nCoV are currently available..."

Every object that exists can be quantified, which is to say, measured. The use of the term "quantified" in that phrase means: the CDC has no measurable amount of the virus, because it is unavailable. THE CDC HAS NO VIRUS.

A further tip-off is the use of the word 'isolates.' This means NO ISOLATED VIRUS IS AVAILABLE.

Another way to put it: NO ONE HAS AN ISOLATED SPECIMEN OF THE COVID-19 VIRUS.

NO ONE HAS ISOLATED THE COVID-19 VIRUS.

THEREFORE, NO ONE HAS PROVED THAT IT EXISTS.

As if this were not enough of a revelation to shock the world, the CDC goes on to say they are presenting a diagnostic PCR test to detect the virus-that-hasn't-been-isolated...and the test is looking for RNA which is PRESUMED to come from the virus that hasn't been proved to exist.

And using this test, the CDC and every other public health agency in the world are counting COVID cases and deaths...and governments have instituted lockdowns and economic devastation using those case and death numbers as justification.

If people believe "you have the virus but it is not available," and you have the virus except it is buried within other material and hasn't been extracted and purified and isolated, these people believe the moon is made of green cheese.

This is like saying. "We have the 20 trillion dollars, they are contained somewhere in our myriad accounts, we just don't know where." If you don't know where, you don't know you have the money.

"The car keys are somewhere in the house. We just don't where." Really? If you don't know where, you don't know the keys are in the house.

"The missing cruise missile is somewhere in the arsenal, we just don't where." No. If you don't know where, you don't know the missile is in the arsenal.

"The COVID-19 virus is somewhere in the material we have—we just haven't removed it from that material. But we know what it is and we've identified it and we know its structure." NO YOU DON'T. YOU ASSUME THAT.

Science is not assumptions.

“But...but...there is a study which says a few researchers in a lab isolated the virus...”

They say they did. But in July, the CDC is saying no virus is available. I guess that means trucks were not available to bring the virus from that lab to the CDC. The trucks were out of gas. It was raining. The bridge was washed out. The trucks were in the shop. Joe, the driver, couldn't find his mask, and he didn't want to leave home without it...

Science is not assumptions.

The pandemic is a fraud, down to the root of the poisonous tree.
