[The Viral Delusion \(2022\) Docu-Series: The Tragic Pseudoscience of SARS-CoV2 & the Madness of Modern Virology](#)

by [Paradigm Shift](#)

April 2022

The doctors, scientists and journalists featured in [THE VIRAL DELUSION](#) examine in detail the scientific papers that were used to justify the pandemic, and what they find is shattering. In this shocking, five-part, seven hour documentary series, they explode every single major claim, from the “isolation” of the virus to its so-called genetic sequencing, from the discovery of how to “test” for SARS-CoV2 to the emergence of “variants” that in reality, they explain, exist only on a computer. Their point: that the so-called SARS-CoV2 virus exists only as a mental construct whose existence in the real world has been disproven by the science itself.

They then go back through history to reveal how the birth and growth of virology has led to massive misunderstanding and misdiagnosis of disease: from Smallpox to the Spanish Flu, Polio to AIDS, to COVID itself – putting the pandemic in a whole new context better understood not as settled science, but the tragic culmination of misunderstood biology by the growing cult of virology, built on pseudo-science, to which

much of the rest of the medical profession defers without understanding or examination, and the tragic consequences that have been wrought in its name.

In 2019, the virologists took center stage, and for the first time on film, their methods, miscues and tragedy they have wrought are put under the spotlight, revealing the extraordinary leaps of fantasy buried in their methodology, the contradictions quietly acknowledged in their papers, their desperate effort to change language to justify their findings, the obvious incongruence of their conclusions and the extraordinary stakes for our entire society in whether we continue to blindly follow their lead into a full-scale war against nature itself.

Featuring: Andrew Kaufman, MD; Tom Cowan, MD; Stefan Lanka, Virologist; Torsten Engelbrecht, journalist; Claus Kohnlein, MD; Kevin Corbett, PhD RN; David Rasnick, Biochemist PhD; Mark Bailey, MD; Dawn Lester and David Parker, Authors; Stefano Scoglio, Biochemist PhD; Saeed Qureeshi, Chemist PhD; Celia Farber, Journalist; Harold Wallach, PhD; Pam Popper, PhD, ND; Charles Geshekter, PhD; Amandha Vollmer ND, Jim West, Author; Larry Palevsky MD; and more.

The Viral Delusion (2022) [Episode 1](#):The Tragic Pseudoscience of SARS-CoV-2

When doctor Andrew Kaufman began reading the first virology

papers out of Wuhan in December 2019, he was shocked to discover that the scientists had come nowhere close to proving that a new virus had emerged... yet saw the media and authorities already claiming a viral pandemic was on it's way.

In this extraordinarily revealing opening episode, a group of biologists, chemists, doctors and journalists take apart the SARS-COV-2 narrative piece by piece – from the non-isolation of the virus, to the hidden problems with purported photographs of the virus, to the claims that it has been genetically sequenced, to the invalidity of the PCR “covid-test.”

From the treatment protocols for COVID to the assumption of its transmission, Episode One unpacks the science of the claims that changed the world – in which these doctors and scientists make the case that every single claim the authorities made about the so-called SARS-COV2 virus has been based not on evidence, but pseudoscience.

The Viral Delusion (2022) [Episode 2](#): Monkey Business: Polio, Measles And How It All Began

How did it all begin?

How could the scientific establishment have possibly gotten so big a story so wrong?

Everyone knows the story of Polio...or do they?

What from that story is actual history and what is medical marketing?

How did a small branch of the scientific establishment come to convince the world polio was the result of a virus and not from environmental toxins?

Learn what the actual experiments were upon which this

theory was based – and how shockingly unconvincing they are.

Discover too how the medical establishment's efforts to squeeze the symptoms of polio into a virus model formed the very foundation of modern virology, and how that commercially successful model has steered modern science ever since, evidence be damned.

The Viral Delusion (2022) Episode 3: The Mask of Death – The Plague, Smallpox and The Spanish Flu

What about Smallpox?

The Spanish Flu?

The Black Plague?

Go back, back, back in time to examine the claims and counter-claims as to what truly caused these deadly epidemics.

Are the rats of Europe innocent? Turns out they have to be...

And in that discovery we see how the superstitions of our time have clouded the eyes of "science" to avoid the most obvious of insights about disease.

The Viral Delusion (2022) Episode 4: AIDS, The Deadly Deception

AIDS. It was the defining epidemic of a generation.

But it was also the coming of age for many leading scientists and doctors who came to realize that blaming the illnesses known as AIDS on a virus was not only unsupported by science, it was downright nonsensical.

What were the true causes of the many illnesses labelled

AIDS around the world?

How many suffered from their misdiagnosis?

How the scientific establishment fell into the deadly AIDS delusion is crucial to understanding the pandemic, and health, today.

The Viral Delusion (2022) Episode 5: Sequencing The Virus, Without The Virus

With the rise of computing and genetic research in the 90's the virologists go high-tech.

They move away from experiments altogether and into genetic modeling – but do the models have any connection to reality?

The wonders of genetic sequencing have been pointed to as the proof of virology's explanatory power – but when the claimed sequencing of SARS-CoV2 is put under the microscope, has the game changed from the realm of science, to science fiction?

What's really going on the claim of genetically identifying the SARS-CoV-2 virus is made?
