The World Economic Forum's Totally Not Creepy New Idea

The World Economic Forum's Totally Not Creepy New Idea

Schwab and the boys are at it again.

by <u>Paul Joseph Watson</u>, <u>Summit News</u> August 18, 2021

Davos globalists are worried that ubiquitous face masks are preventing the plebs from being identified via facial recognition technology.

But don't worry, they have a solution, and it's not creepy at all!
