[To US Attorney General: hydroxychloroquine clinical trials intentionally murdering people?](#)

It's all about the DOSAGE

by [Jon Rappoport](#), [No More Fake News](#)

June 22, 2020

Mr Barr: You must look into this one. Yesterday. Set your hounds loose.

Summary: Several clinical trials of hydroxychloroquine (HCQ) have been administering huge doses of the drug to COVID patients—doses that can easily be lethal.

Obviously, if the inexpensive HCQ is said to fail, and is called dangerous, then it is sidelined, in favor of far more expensive (and profitable) drugs. And the promised vaccine has a clear field as the only “reasonable strategy against the pandemic.” Meaning: sky-high profits for the manufacturers. Get it?

The 6/20/2020 article exposing the crimes is posted at the Alliance for Human Research Protection (ahrp.org): [“COVID-19 Has Turned Public Health Into a Lethal, Patient-Killing Experimental Endeavor,”](#) by Vera Sharav. Two detailed sections of the article are written by Meryl Nass, MD, who did the investigation to uncover the sordid and astonishing details:

“Dr. Meryl Nass has uncovered a hornet’s nest of government sponsored Hydroxychloroquine experiments that were designed to kill severely ill, Covid-19 hospitalized patients. On June 14th Dr. Nass first identified two Covid-19 experiments in which massive, high toxic doses – four times higher than safe of hydroxychloroquine were being given to severely ill hospitalized patients in intensive care units.”

\* “Solidarity [experiment] was being conducted by the World Health Organization, on 3500 Covid-19 patients at 400 hospitals, across 35 countries. The trial was suspended following the fraudulent Surgisphere report in The Lancet that claimed 35% higher death rates in patients receiving Hydroxychloroquine [for the background on that fraudulent report, [click here](#)]. But when The Lancet retracted the report, the WHO *resumed* the Solidarity trial. More than 100 countries expressed interest in participating in the trial.”

\* “Recovery experiment used very similar doses. It was sponsored by the Wellcome Trust (GlaxoSmithKline) and the Bill and Melinda Gates Foundation and the UK government. The experiment was conducted at Oxford University, on 1,542 patients of these 396 patients (25.7%) who were in the high dose Hydroxychloroquine arm, died.”

“**Update:** After Dr. Nass’ discovery was publicly disseminated, the WHO suspended the trial on Wednesday June 17th.”

“On Friday, June 19th, Dr. Nass uncovered a third, “Even Worse” hydroxychloroquine experiment. REMAP targets patients who are on a ventilator, or in shock – i.e., near death. Such patients are hardly capable of giving consent. Rather than attempting to save their lives, they are being used given multiple high doses of hydroxychloroquine and other drugs whose combination is contraindicated.”

“Of note: All the online protocols have been stamped ‘**Not for IRB (Institutional Review Board) submission**’.” [emphasis in

original]

“This is an ongoing medical atrocity being perpetrated by medical doctors at 200 sites in 14 countries: include: Australia, Belgium, Canada, Croatia, Germany, Hungary, Ireland, Netherlands, New Zealand, Portugal, Romania, Spain, United Kingdom, and the United States of America.”

“Since all medicines are potential poison at high doses, why one wonders, are influential academic physicians and international public health institutions designing and conducting experiments that expose extremely vulnerable patients to poisonous levels of the drug Hydroxychloroquine?”

The article goes on to spell out, in great detail, how these clinical trials of HCQ have been conducted.

So, Mr. Barr, you should be working with law enforcement in all countries where these horrific studies are being run. The medical perpetrators, and their knowing assistants, need to be arrested and put on trial. No time to waste here. Get busy. You can be sure records have already been hidden, changed, and shredded. Denials of crimes will be couched in technical medical language—“you civilians couldn’t possibly understand what we’re doing.” This unconscionable strategy is SOP in such cases.
