March 8, 2021

Although the UK Government only *recommends* face masks and testing in schools, many Heads have opted to make these mandatory. If your child's school has a mandatory mask and/or testing policy and you are concerned, we can help.

You can **request a letter** to be sent to your child's school from **Lawyers for Liberty**, **completely free of charge and also completely anonymously on your part.**

This letter will register a complaint about the school's mask and/or testing policy, and will also inform the school's Head of the potential risks and legal liabilities of their regime.

The letter will be sent from **Lawyers for Liberty** **anonymously** – **please be assured that it will not mention you or your child by name.**

[This is the template letter we will be sending.](#)
