UK Medical Freedom Alliance has written an Open Letter to all University Vice Chancellors and Higher Education College Senior Management, appealing to them to refrain from imposing any Covid-19 health-related conditions on students accessing education at their institutions, and urging them specifically to strongly resist imposing any requirements for students to accept a Covid-19 vaccine.

We set out our concerns relating to Covid-19 vaccine safety, and the violation of laws and guidelines around informed consent that would result from imposing this condition on students' access to education.
