An ABC news fishing expedition on Facebook took a startling turn over the weekend, after a reporter asked readers to share stories of loved ones who died of Covid after refusing or delaying to get the vaccine.

Instead, thousands of readers reported of loved ones who died after vaccination and, even worse, from adverse reactions to the vaccine.

On Friday, ABC affiliate [WXYZ-TV in Detroit](#) posted:

WXYZ-TV Channel 7

September 10 at 3:40 PM

After the vaccines were available to everyone, did you lose an unvaccinated loved one to COVID-19? If you're willing to share your family's story, please DM us your contact information. We may reach out for a story we're working on.

By noon on Monday, the post had received [over 39,000 angry and often heartbreaking responses](#). Virtually every string contains a firsthand report by people whose family members are grieving the loss of loved ones of all ages.

Typical of many of the responses, one woman wrote poignantly:

Lost my Mom 10 days after she got her 2nd Pfizer jab. She couldn't swallow or talk correctly the very next day...was hospitalized and basically never "woke up" again. Was sent home on hospice after 5 days in the hospital and died at home 2 days later. ... [See More](#)

Another grieving daughter posted:

My daughter 33 years old died 10 days after getting the shot  
She had a enlarged heart and she had a terminal lung disease pulmonary hypertension ! She shouldn't of gotten the shot! Pfizer only first shot Bath New York.

A would-have-been grandmother reported:

My daughter got the first dose of Moderna then conceived a baby. My grandson was stillborn with heart and brain malformations that a Pfizer VP said could happen during the 20th and 22nd day of conception. But hey he is a crazy guy right. Hmm. Not. Also the FDA won't have full test results in regards to teratology until 2025.

I have a friend that dies after receiving the Pfizer. Went to the Er with unexplained tremors the day after. They got the tremors to stop and released him. He died the next day.

Another had multiple stories to report, and communicated the overwhelming disillusionment with the corporate media overwhelming voiced by posters.

My parent's neighbor woke up the next morning after the shot suddenly completely deaf. His doctor told him it's from the vaccine and if his hearing didn't return within a few weeks he will be permanently deaf. He is now permanently deaf.

Our rabbi's mentor (a very prestigious rabbi) was recovering from covid in a rehab facility. He was doing well, walking and about to be discharged home. The facility forced him to take the vaccine because it became their policy, even though he refused. He immediately developed paralysis in one arm. They then forced the second shot on him, he refused again, but the facility insisted. After the 2nd shot he developed complete, progressive paralysis and died.

Why do we not see these stories in the news? Why are journalists silent on the thousands of vaccine injuries leading to permanent disability and death? What happened to honest journalism? Please report these stories in the news!

Reports of heart attacks and strokes abound:

My Dad started having problems after his first shot. But was bound and determined to get second shot. He died 5 days after second shot of a massive heart attack 😞 He had no known heart problems before!

My father in law had the covid vax then had a stroke and died. They ruled out all the normal stroke causes. It was the vaccine and my husband will be reporting it to VAERS. Do a report on that!

Like · Reply · 1d

No stories on that. But a guy I knew got double shot and 2 days later dropped dead of a heart attack. Why don't you report on THAT
