Watch the official public release of Matador Films new “Uninformed Consent” documentary, presented by Librti.com and Vaccine Choice Canada.

An in-depth look into the Covid 19 narrative, who’s controlling it, and how it’s being used to inject an untested, new technology into almost every person on the planet.

The film explores how the narrative is being used to strip us of our human rights while weaving in the impact of mandates in a deeply powerful story of one man’s tragic loss.

Hear the truth from doctors and scientists not afraid to stand up against Big Pharma and the elite class who profit from mandates.

Written & Directed by Todd Harris, Matador Films.
