Use These Documents to Assert Your Rights Against Forced Vaccination & Medical Tyranny

Editor's Note:

Several readers sent us links to <u>FreedomTaker</u> website where they share downloadable documents to assist us in asserting our rights to freedom. Please note that this is **not legal** advice. These are tools offered by an anonymous site, apparently created as an act of service to other freedom defenders. The documents are downloadable in word format at <u>FreedomTaker</u>. We have provided three of the documents in pdf format below.

Refusal of Vaccination

Vaccination Notice, Conditional Acceptance

Refusal of Medical Testing

FreedomTaker also has an <u>EMF Help Center</u> for assistance with issues around Smart Meters. utility meter trespass and utility company misconduct.

You'll also find a notice for census takers and other suggestions for asserting your freedom at the <u>FreedomTaker</u> site.
