[originally published July 2018]

*there was no way to deny it or get around it  
her little boy started screaming after the shot  
and then 2 days later  
the world shut down*

*he sat in a corner  
he lay in his bed  
he didn't speak*

*the doctor huffed and puffed in back of his steady blank  
eyes  
he assured her this had nothing to do with the shot  
it was a predisposition or a genetic trait or a  
precondition*

*he smiled now and then  
he said autism could have emerged on its own just after the  
shot was given  
as if the universe rearranged itself  
at that moment*

*she saw she was talking to a psychopath  
he had been a machine for a long long time*

*she went into the darkness and pled her case before a  
government committee  
they sat like ancient priests  
and listened and glanced at documents  
and when they had permitted her the allotted time they  
handed down their judgment:*

*no*

*she went home and took her boy in her arms  
he was still  
he didn't look at her  
he didn't speak*

*she consulted a lawyer  
who told her  
the manufacturer was protected by an iron wall  
he would continue to make the vaccine and sell it  
and pocket billions*

*the long night was closing in  
the storm was here  
the silent boy was sitting in its eye*

*rage was burning in the middle of her chest*

*a rage the public would see as insanity*

*from a distance, the moon and the stars might know  
what was going on  
but people in their everyday straitjackets  
would lash out at her  
because they needed a target  
they needed to ridicule a defector from their own slave-  
shuffle*

*they obeyed all the small print  
they were neutered in their cores  
paralytics*

*but she wields  
the two-edged sword in the empire*

*that cuts away the web  
and comes to the spider*

*no matter what defamation  
the intermediary whores  
lay at her door*

*liberty from the living death...Vaccine Woman*

*She and her family are pre-civilization, civilization, and  
Post-civilization*

*And she will bare the innards of the crime*

*Her enemies will never know*

*What it means to have her mission*

*Vaccine Woman*

*Love in her breast for her own is one answer*

*Justice is another*

*She has a two-edged sword in the Empire*

*That cuts through the web*

*And comes to the spider*
