IN 12 MONKEYS, A DESIGNER VIRUS WIPES OUT MOST OF HUMANITY,
AND ONLY ANIMALS REMAIN ON EARTH'S SURFACE.

THERE'S EVEN A SCENE WHERE AN ENVIRONMENTAL GROUP
SETS ZOO ANIMALS FREE.

Decided to insta-premiere this one because I don't know how long it'll be allowed up there. Please come watch our latest mini-doc (runtime: 1 hour 10 mins). Everyone needs to see this one.

This entire ordeal has been surreal; everyone has naturally wavered in and out of fear and anxiety, and the worst may be yet to come.

With the headlines constantly flooding in more and more significant developments, it has been difficult just to keep up with events... but alas, a narrative IS emerging.

This has all been very carefully coordinated – if not planned in advance. All the emergencies and viral situations

certainly APPEAR to be playing into a program to rapidly- and perhaps-irrevocably change society forever.

As this [MIT Tech Review article](#) boldly proclaims, “We’re not going back to normal” – instead, works are underway to require tech-authorization for anything and everything, for our very right to go into public, and into businesses, events and more.

Not just now, while things are bad, but perhaps indefinitely. This is how THEY see the future... and it isn’t clear just how much choice any of us would have in this future, other than to capitulate and cooperate.

Of course, the future isn’t written yet, but it is clear that a number of key insiders, and many of the usual suspects, already have a draft-of-the-future in hand, and are attempting to operate from its script.

That’s a major part of why this video is essential – one of the most important warnings we’ve ever put out.

What is being attempted here is like toast – there is no going back to bread, if this transformation is completed.

It may be time for a change in our society, but be very, very cautious as to what change the public is preparing to accept, rally behind – and even believe wholeheartedly in.

Any number of agendas and conspiracies are all getting wrapped up in “finishing all the family business.”

This is a major move the likes of which we have never seen, and even the aftermath of 9/11 may stand in pale comparison to the change now being attempted.

It has been 4 days of editing, and warding off disbelief, shock, and anger over and over again... but something major is happening. Will we say no in time?

Love,

Aaron and Melissa
