What is Anarchy?

Anarchy needs to be understood as a vector towards freedom and not towards chaos.

Etienne de la Boetie² (yes, with a squared sign and, no, it isn't his real name) [previously chatted to me](#) about why all governments are illegitimate authorities and, basically, why *anarchy* is not a bad word. Establishment propaganda has done a great job in duping a lot of people into believing that being governed by a self-imposed authority with a monopoly on violence, is equal to freedom.

What is anarchism?

For clarity, *anarchism* is a collection of ideas that lead to *anarchy*, although it's probably acceptable to use both words to describe the same idea.

Rejection of the state equates to anarchism. But the problem that I have found is that anarchism is misunderstood, whether by design or not. Anarchism (or anarchy) does *not* mean chaos. Anarchism, in the words of Benjamin Tucker, could be described as

the doctrine that all the affairs of men should be managed by

individuals or voluntary associations, and that the state should be abolished.

He goes on to say that

the state is the embodiment of the principle of invasion in an individual, or a band of individuals, assuming to act as representatives or masters of the entire people within a given area.

Basically, the government is the subjection of the noninvasive individual to an external will. **Anarchy** is a synonym for liberty, freedom, independence, self-government, non-interference and you-don't-speak-for-me.

Governments are a scam

Etienne's book – which is available via his website [The Art Of Liberty](#) – is certainly [worth buying](#) because it highlights all of the aforementioned talking points in an easily digestible format.

About the Book: The softcover version of "Government" – The Biggest Scams in History... Exposed! – How Inter-Generational Organized Crime Runs the "Government", Media, and Academia. This 5th edition includes a redesign, new "one-pagers" and updated content. Using historical photographs, visualizations, media ownership charts, infographics, and memes, the book is designed to accelerate and deepen the understanding of the 65% of the population that are "visual learners," including revealing historical patterns, organizational structures, banking monopolization and other previously hidden connections through visualization. The book catalogs 20+ unethically manipulative techniques used on free human beings to create an artificial culture that produces obedient "taxpayers" and "order followers" willing to kill on command or use violence on peaceful people to enforce the edicts of an artificially indoctrinated statist religion on their friends, relatives and neighbors.

The book is backed up by *The Liberator* (sold separately) – A credit card-sized companion flash drive (and free Dropboxes) full of evidence and liberty resources that both expose the control system and provide the healthy alternatives of voluntarism, freedom, love, tolerance, agorism, counter-economics, and cryptocurrencies. The new 2022 64GB *Liberator* has hundreds of survivalist and self-sufficiency resources and the companion material for our upcoming book: *Solving Covid – The Second Biggest Scam in History*. The physical books and flash drives, low-cost bulk copy "friends' bundles," and now pop-up guerrilla bookstores are designed explicitly for hand-to-hand distribution to get around organized crime's "propaganda matrix" of six monopoly media companies running hundreds of subsidiaries, chain bookstores and around three-four dozen internet search, social media, streaming platforms, fact-checkers, and video sites that offer the illusion of choice and diversity-of-opinion on the DARPA Internet.

Etienne de la Boetie² is the pen name of a voluntarist author, father, technology entrepreneur, runner, hot yogi, multi-disciplinarian truther, armchair economist, cryptocurrency enthusiast, and neo-abolitionist who is experimenting with large-scale cult deprogramming. Mr. Boetie² distills 20+ years of research into short, easily digestible treatises on individual subjects and optimizes them for the 65% of society who are visual learners while including references and links to more comprehensive research and evidence including books, videos, documentaries, and audiobooks to accommodate the widest variety of learning preferences.

Mr. Boetie² is the founder of a start-up public policy organization: *The Art of Liberty Foundation*, which is exposing the illegitimacy and criminality of "government" and the hidden curriculum of organized crime's mandatory government schools, scouting programs, and police/military training. He publishes the weekly meme and news summary; *Five Meme Friday* @ ArtOfLiberty.org/subscribe, and his next book *Solving Covid – The Second Biggest Scam in History*, will be available at SolvingCovid.org

Basically, *Government – The Biggest Scam In History* is about

[p]roving the case that “Government”, of every flavor, has been a scam of inter-generational organized crime since the beginning... and they have been getting away with it... until now... because they have been controlling the media and academia.

Think of it even more simply.

If an armed gang knocked on your door and demanded that you pay them a percentage of your income, no matter what their reasons might be, then any rational individual will agree that such behaviour is criminal.

Replace “armed gang” with “government”.

Our conversation

I really enjoyed this conversation. In fact, it’s one of my favourites.
