

Where Did the Rest of the Internet Go?

Where Did the Rest of the Internet Go?

Fake people with fake cookies and fake social-media accounts, fake-moving their fake cursors, fake-clicking on fake websites – the fraudsters had essentially created a simulacrum of the internet, where the only real things were the ads.

61.5% Web Traffic Comes from Bots

The people are fake.

The content is fake.

The businesses are fake.

The metrics are fake.

Using bots to affect humans

Fighting online trolls with bots
