

Will Nanotechnologies and the New 5G Network Become the Most Powerful Weapon System the World Has Ever Seen?

If you are being introduced to some of the topics covered in this article for the first time, it might come across as “conspiracy theories” or far-fetched sensationalism.

And while some of the predictions of how this technology can be used in the future might seem to be speculative at this point, it is based on hard evidence of what is really happening TODAY, in areas like geoengineering, nanotechnology, and the new proposed 5G networks.

None of these technologies are speculative. They are already being used. The only questions remaining are who will control these technologies, and to what extent will they be implemented?

What is written here by John P. Thomas is the result of years of research. To fully understand these topics, you will need to read the links to previous investigative reports, and follow the footnoted references as well to examine the evidence for yourself.

You will not read any of this in the corporate-sponsored “mainstream” media networks.

Will Nanotechnologies and the New 5G Network Become the Most Powerful Weapon System the World Has Ever Seen?

When the nanotechnology in human bodies is activated by special frequencies from the 5-G network, we could experience the most powerful weapon system that has ever been invented.

Unlike atomic weapons that kill everyone and create a toxic disaster for both the winners and the losers of war, the pairing of nanotechnology that is in our bodies with the high frequency radiation in the gigahertz and terahertz range will create weapons that can fulfill an incredible number of functions for those who control the technology.

Clean and Neat

This weapon system has the potential to individually identify and monitor the location of all people on the Earth.

This weapon system has the potential to monitor emotions and thoughts of individual people.

This weapon system has the potential to transmit instructions to individuals and to groups that will create thoughts and trigger emotional responses. It will even be able to restrict the ability to logically evaluate situations and create alternative solutions to problems.

This weapon system has the potential to target individuals who have been deemed as uncooperative and neutralize them for the

greater good of society. This will be accomplished by disrupting neurological activity, weakening human immune systems, causing pain, creating life-threatening illnesses, and producing premature death.

I realize that this all sounds like rather far-fetched speculation and fantasy, but there is enough evidence to support these claims and enough evidence to begin taking proactive steps to protect ourselves from what is rapidly coming toward us.

Let's look at some of the powerful evidence that has led me to draw these conclusions.

Former Catholic Nun Sister Keri Burnor Targeted for Death through Nanotechnology

Keri Burnor was a Roman Catholic nun when she was sexually assaulted by a priest. She filed criminal charges against the priest in 2001. He was found not guilty. [1]

She did not understand why the district attorney failed to adequately work to obtain a conviction. As she investigated the collusion between the attorney, the judge, the Roman Catholic Church, the Vatican, and the members of St. Joseph's Abbey in Massachusetts where the sexual assault occurred, she opened a Pandora's box of systemic evil emerging from the deep state. The deep state refers to the financial power structure that controls governments around the world. [1]

Keri Burnor did not shrink back with her defeat in court, but began to position herself as a helper to others who had been abused by clergy.

Eventually her work with other victims of sexual abuse in the Roman Catholic Church and the information she learned about the activities of the Jesuit order and their infiltration of the command structure of the U.S. military led to her being interviewed on several internet radio programs.

She documented her findings on her website and spoke openly about what she knew to be the truth. She then became a marked woman and her activities were monitored from that point forward. [1]

Eventually there would be more than ten attempts on her life using nanotechnology, high frequency energy transmission systems, radioactive substances, sound weapons, and various other weapons. [1]

There is much more Behind her Story than a Sexual Assault

Keri Burnor discovered that St. Joseph's Abbey was built with funds donated in large part by a Knight of Malta and his wife. Their names are inscribed on the front of the Abbey's main altar – J. Peter Grace and his wife Margaret. [1, 2]

Mr. Grace was the president of the giant chemical manufacturer called W. R. Grace and Co. Mr. Grace played an instrumental role in bringing Nazi SS officers and Nazi scientists to the

United States after World War II. He did this through project Paper Clip, which wiped away evidence of their Nazi involvement and approved more than 900 German scientists to come to the United States. [2]

Mr. Grace then put many of the former Nazi scientists to work in his company. He also worked with the CIA to imbed many others in CIA mind control programs such as MK Ultra. [2]

As a high-ranking Knight of Malta, he occupied one of the highest non-ecclesiastical positions in the American Roman Catholic Church. It has been said that Knights of Malta are free to pick up the phone and chat with the Pope whenever they have the need or desire. [2]

Keri Burnor also had evidence that St. Joseph's Abbey continued to be an undercover location for CIA operations. She believed that some monks (not all of them) in the abbey were actually CIA operatives engaged in clandestine activities. [1]

Keri Burnor became a Targeted Individual Marked for Death

In 2011, she had sinus surgery. After the recovery she knew that somehow things were not right. She eventually discovered that she had been implanted with weaponized military grade nanotechnology during the surgery. She went through highly specialized testing, which conclusively showed that her body was transmitting radio wave signals to an unknown receiver. [1, 3]

She had pain, bloody ears, noises in her head, and numerous other unexplained symptoms. She had to shield herself from frequency transmissions, take 75 pills a day, and sit in a sauna for an hour a day for 3 months in order to get the stuff to break up. [3]

Eventually highly sensitive scientific instruments confirmed

that her body was no longer emitting frequencies. [1, 3]

Psychological Evaluation

Keri Burnor arranged for an extensive psychological evaluation. The evaluation confirmed that she was not delusional, paranoid, schizophrenic, or abnormal in any other way. [1, 3, 4]

Based on scientific evidence of having been exposed to military grade nanotechnology and having had that technology cleared from her body, the doctor concluded that her mental status was normal. [1, 3, 4]

These are Keri Burnor's comments about why this happened to her. She stated:

I believe it was because I exposed St. Joseph's Abbey as a CIA front. Not all the monks are bad or all the monks are CIA covers, but there is no question in my mind now that the monastery was erected for a specific purpose and it is related to national security.

The monastery was protecting those who were conducting mind control MK ultra experiments. They used children for this.
[3]

Additional Attempts on Her Life

Keri Burnor then started being stalked by various men. She took a close-up photo of one of the men and gave it to the private investigator she hired to keep her safe. He discovered that the man was an international hired assassin. [3]

The private investigator was then picked up and chained to a chair and subjected to four hours of questioning. One of her

attorneys was beaten close to the point of death and the lives of other attorneys were threatened. [3]

After all this, the private investigator advised Keri Burnor to assume an alias and go into hiding. He helped her do this and she spent more than five years on the run. [3]

There were numerous other attempts on her life. One of which involved the spraying of her car's interior with nanotechnology. Laboratory tests confirmed that the nanotechnology was designed to promote the rapid onset of three kinds of cancer, which could have caused death in as soon as 30 days. [1, 3]

Keri Burnor now works with other targeted individuals who have been intentionally exposed to military grade nanotechnology to help them detoxify the technology from their bodies and to restore them to health. [5, 6]

How can Nanotechnology become a Weapon against the General Public?

It might be easy to assume that Keri Burnor's story is unique, because she was specifically targeted for death because of what she knew. However, that would be a misguided assumption.

The truth is – we are all being exposed to nanotechnology every day through the air we breathe, the water we drink, the food we eat, the pharmaceuticals and supplements we take, and of course through vaccines. This is not military grade nanotechnology, but it still can become a weapon against people.

Over time, nano exposure, when combined with radiation from the 5-G system, will become a mechanism of human control and even become a threat to our lives.

Smart Cities will be the Command Center for Human Control

I have previously written extensively about 5-G and its dangers. I have discussed various reasons for the international fervor about deploying the 5-G system as fast as possible to create "Smart Cities." See:

Can New 5G Technology and Smart Meters be Used as Weapons?

Based on my recent investigations, I now see an even deeper plan behind the Smart Cities movement. It is about targeting us all for control, and when necessary, targeting us for elimination.

We are all being targeted, not because of what we know, but because that is the plan of the deep state to manage and control all human life. This is the ultimate aim of "Smart Cities."

The real agenda behind Smart Cities is not fast internet downloads and self-driving cars! The real agenda of the Smart Cities movement is to control what we think and how we behave. It is about keeping tabs on our physical locations and to make sure we don't do anything other than the jobs that we have been assigned.

Ultimately, the controllers of the worldwide network of Smart Cities will decide who lives and who dies. They will kill

through targeted use of the 5-G Smart grid. They will stimulate accelerated disease progression – unexplained heart attacks, rapid onset cancer, untreatable flu, and trigger depression and suicide.

For those who need more evidence, I refer you to a page of U.S. patents describing some of the technology that has already been designed to monitor human activity from a distance and to influence human activity.

How is this Possible? – How will this be Accomplished?

To answer these questions, we need to begin by looking at the nature of nano substances.

Nano structures are built up from nano particles. They are assembled to form nano crystals, nano films, nano wires, nano tubes, etc.

Nano particles are very tiny. The measurement of the smallest dimension will be between 1 NM (nano-meter) and 100 NM. One nano meter is 1 billionth of an inch. A human hair is between 50,000 NM and 100,000 NM thick. [7]

Other components of nanotechnology are viral-like fragments, which contain XNA. The laboratory manufactured XNA components will insert themselves into human cells and take over the functioning of some of the DNA and RNA which are the building blocks of our genetic material. XNA is chemically very similar to DNA and can be easily incorporated into human cells and can reproduce itself. [9]

Nano Particles don't Behave like Larger Particles

The nature of nano structures is to gather together. When conditions are just right, they will become self-assembling. [7, 8, 9]

In other words, they will join together in planned configurations to form technology that can be used for a variety of purposes. [7, 8, 9]

Nano materials are much more likely to be toxic to human life even though larger particles of the same materials may not be harmful. [10]

Three Phases of Development Leading to Smart City Control over Human Life

There are three phases to this program – expose, replace, and activate.

This entire process became possible when our immune systems were disarmed by glyphosate, the active ingredient in the world's most widely used herbicide. This allowed nanotechnology to enter our bodies and our cells to reload new information into our genetic code. [11]

Once the information is fully loaded it can be activated by frequencies. Not the Gigahertz frequencies that will be used in 5-G, but by the next level up – Terahertz frequencies, though the same 5-G hardware may be used to beam terahertz frequencies at our bodies. [11]

When a person is targeted for activation he will experience symptoms such as: pain and aching, feeling like you are on fire, feeling like electric shocks are moving through your body, experiencing severe fatigue, feeling physically and emotionally drained, and feeling as if you have been beaten up and taken out of action.

You will be overwhelmed by thoughts that tell you it is

impossible to resist or stop what is happening – so just give up. [11]

It is important to know that there are countermeasures that can be taken at the current time to reduce nano from the human body and if the point has been reached where activation is in process, it is still possible to resist and recover. The situation is not hopeless. [11]

Exposure to Nano – It cannot be Avoided

There are at least six sources of exposure to nano materials. The air we breathe, the water we drink, the food we eat, the pharmaceuticals and supplements we take, and of course vaccines.

Historically, the beginning point for a large portion of our exposure to nano substances came from aerial spraying programs. Various substances have been sprayed into the atmosphere for many decades some of which are nano size materials.

This geoengineering program (chemtrails) is supposedly designed to protect us and the Earth from the effects of the sun in an age of elevated atmospheric carbon. This propaganda campaign is designed to convince us that human use of fossil fuels is the cause of disruptions in the Earth's climate.

Previous articles on geoengineering:

[Covert Chemical Geoengineering Programs – A Real Threat to Public Health](#)

The aerial spraying program consists of both high altitude and lower altitude particle releases.

The high-altitude spraying seems to be more about supplying material that benefits the HARP program, [11] which is a directed energy weapon system that is used by the U.S. government and the Canadian government [12] to prevent rain, or to create destructive storms, floods, earthquakes, and fires.

The lower altitude spraying appears to be releasing particles that are intended to infect or expose human beings to nano substances of various types.

These substances enter our bodies when we breathe. These substances also fall into the water we drink and are taken up by plants into their systems. These substances collect on our skin and are difficult to remove. They coat the leaves of plants and cannot be washed off. Nothing can escape this exposure. [12]

In addition, nano substances are intentionally added to thousands of manufactured foods and cosmetics as colorings, flavorings, preservatives, and stabilizers.

Products that contain glyphosate residue such as most grains produced in the United States (both organic and non-organic) also contain nano substances which are plant adjuvants. These nano plant adjuvants make the herbicide work more effectively and cannot be removed from the grain. [12]

Nano titanium dioxide is added to many pharmaceuticals and even supplements to facilitate absorption of other substances in the pills and capsules.

Most colloidal products such as colloidal silver, gold, zinc, and other metals now contain nano particles of these metals. They no longer contain moderately large particles of the metals, which the body can easily excrete. Nano-sized

particles behave very differently in the body. Instead of providing health giving benefits, nano size metals act like toxins. [12]

Putting the Pieces Together

So, all human beings on the planet have been and are being exposed to the building blocks of nanotechnology. Nanotechnology is slowly and systematically being built up in our bodies.

When the 5-G system gets fully implemented it will secretly use terahertz frequencies to turn on and utilize the nanotechnology that has been incorporated in our bodies.

The nanotechnology has the potential to receive and transmit data, influence our minds, and exert harmful effects depending on the will of those who control the system of Smart Cities.

Self-Repairing and Self-Reproducing Technology

Nanotechnology is not only self-assembling – it is also self-repairing and self-reproducing. [12]

This means that even if we could surround ourselves with a bubble and somehow only consume unadulterated nano-free food and water, we will still have to contend with existing nanotechnology in our bodies that will seek to keep expanding its presence.

Ultimately Everyone Could be Targeted for Activation

In the future when the systems of 5-G and nanotechnology are fully activated, we could all be targeted individuals. Not just a few dissenters and outspoken people, but all of us will

be potential targets – to be used, influenced, abused, and destroyed based on the will of those who manage the activities of the deep state for the sake of the greater good.

New 5-G Documentary

I interviewed filmmaker Sacha Stone in January of 2019 when he was in the process of finishing his latest film. His name will probably be familiar to you if you read the *Health Impact News* article about the **International Tribunal on Natural Law**, which has been gathering evidence about child trafficking and child sacrifices during the last year. See:

Former Catholic Nun Keri Burnor's testimony that we referenced at the beginning of this article is part of this Tribunal's efforts.

During my interview with Sacha Stone, we discussed a wide range of topics which included the position of the Vatican in world politics, the under-reporting of children who are being trafficked and sacrificed in satanic rituals, and his latest documentary on the topic of 5-G, which was in the process of being finished at that time.

His new documentary was released to the public at the beginning of April and is entitled: *5G APOCALYPSE – THE EXTINCTION EVENT – Monitoring the Planned Poisoning of Humanity*.

Sacha Stone described the film. He stated:

I am about to release a film on the subject matter of 5-G. In the film I interviewed weapons development experts and world leading molecular biologists. The film speaks to the truth of

what is going on with phased array antennas and interrogation technology.

Putting phased array antennas in orbit around the Earth is about the most godless and frankly wicked thing our governments could do. They have no idea of what they are doing, because they are comprised of a body of technocrats and bureaucrats – they are simply pen-pushing functionaries. The people who are driving the functions that those people undertake are vested and nested special interests.

Behind those vested and nested special interests are invariably occultic interests. Again, that takes us back to the Vatican complex and the Jesuitical complex of issues.

Countermeasures Designed to Overcome the Newest Weapon System

It should not be assumed that our exposure to nanotechnology and the 5-G system represents a hopeless situation.

First of all, there is a small movement to reject 5-G. The city of Brussels has rejected the installation of the 5-G network. [14]

Perhaps this is a beginning point for a movement that other cities will follow.

As Keri Burnor learned, it is possible to excrete nanotechnology from the body. I found equipment for helping the body eliminate nanotechnology which can be built at home. Taking baths with certain ingredients can remove nano

materials. There also are many ways that can be used to block gigahertz and terahertz electromagnetic frequencies from entering our homes and offices.

For those of us who value the clear functioning of our minds and want to protect ourselves from thought control, emotional lethargy, chronic disabling pain, paralysis of the will, and death from this system – we will need to take strong steps to protect ourselves and our families.

As the 5-G system is implemented around the world – including 5-G from satellites, we will no longer be able to go to remote locations with the hope of escaping EMF exposure.

We also can't avoid nano contamination. We all have been infected with nano substances from numerous sources, [including even organic food](#).

The good news is that it is possible to expel nanotechnology from the body and to prevent nano from reaching a level where it can be activated with terahertz frequencies.

Future articles will address some of the things that we can do to reduce our exposure to nano substances and our exposure to electromagnetic frequencies.

The future may be grim for humanity, but we don't have to lay down, roll over, play dead, and wait until the newest weapon system takes control over our minds and brings us to an early grave. There are steps we can take to protect and preserve our lives and our freedoms.

The first step is awareness, and that is the main purpose of this article.
