Will the Planned Coronavirus Second Wave Take Root With the Election Chaos and Nationwide Riots as Distractions?

"Tyranny sincerely exercised for the good of its victims may be the most oppressive. It would be better to live under robber barons than under omnipotent moral busybodies. The robber baron's cruelty may sometimes sleep, his cupidity may at some point be satiated; but those who torment us for our own good will torment us without end for they do so with the approval of their own conscience."

~ C. S. Lewis, Article – "The Humanitarian Theory of Punishment". (1949)

What in the world lies ahead? We are in the midst of the most incredible attempt by the powerful to take over humanity that has ever happened on earth. These times will determine our fate, as the controllers and enforcers are on a mission to complete the task of total population control without delay. This is always the desire of tyrants, but nothing of this scale or magnitude has ever been attempted, but now this Covid false flag event has caused the possibility of world domination by the few to be dangerously close to being

attained. This is our dilemma, and there is little time to reverse this course we are on today. What will the people decide?

Those at the helm of this plot have over and over again warned of what is to come. This has been done as a method of preparedness in order to plant in the minds of the masses the idea that viral terror is imminent, and that only the state can save us from this deadly scourge. This of course is a lie, but with proper conditioning, most have succumbed to the possibility, and therefore are ripe for the coming propaganda. This is simply a brainwashing scheme, and there is nothing new about this technique used to dampen critical thinking by instilling fear among the herd. But in this case, the result could be deadly.

In order to bolster the absurd idea that a minor claimed flu-like illness would threaten the country's destruction, major distractions meant to confuse and spread additional fear have been carefully planned, and are being put into place at the identical time of the arrival of the coming flu season. This of course was no accident, as multiple false flags will be used simultaneously in order to cause mass confusion. All that was necessary to initiate these events was to purposely cause more division among the general public, and to then allow the chaotic violence to continue without state interference.

This began with the effort by the political class and its media to inundate the public with news that would stoke racial unrest, and pit black against white. All that was necessary was to make false claims of murder by a white policeman against a black person, and then saturate the national airwaves with the specific intent to stoke hate. Once that was accomplished, setting up, supporting, and releasing criminal gangs like the 'Black Lives Matter' thugs and their Marxist counterparts called Antifa on the streets of American cities was allowed. In my opinion, this was purposely staged and authorized by the controllers, and these despicable hordes

were then able to riot, loot, destroy property, and commit widespread acts of violence without resistance by the police, as most state enforcers were ordered to stand down.

As this was going on, political hate mongering became even more rampant, as the left and right have been brought to a frenzied helter-skelter state of mind just before the most contentious election in history. It has been stated on a continuous basis that this election will never be settled in November, no matter what the vote count shows. Neither side it seems will accept the outcome, which will be dubious at best, so a mass uprising is certainly possible, but more likely probable. This entire fiasco has all the impetus to lead to tremendous civil unrest at the same time that mass rioting and violence by other groups will escalate. In other words, total chaotic madness is coming.

All this and the manufactured second wave of this fake pandemic looks like it will happen simultaneously, just before the poisonous and likely deadly Gate's vaccine will be released. This is a recipe for disaster, and could easily lead to excessive lockdowns, mass quarantine, curfews, extreme violence, and then martial law. The culmination of all these events together within a short period of time will destroy the people's ability to think in any rational terms, as if they have been as of late. This will leave most Americans virtually helpless in the face of totalitarian and draconian measures that will certainly be forthcoming if this country falls into a tumultuous state of insanity.

As difficult as it might be for most to accept, this seems to be a set up that is not only desired, but also has been staged by the ruling class of claimed elites at the top of the pyramid. Already massive wealth transfers have taken place, and will continue with much more to come in 2021 when this failing economy comes completely apart during an economic collapse of epoch proportion worldwide. This will bring extreme poverty, more job loss, monetary restructuring,

digitized systems and elimination of cash, business failures at all levels other than the very top, and dramatic food shortages. The surveillance and control infrastructure will be aggressively expanded, and due to the utter pandemonium that will likely exist, the people will clamor for more control measures by the criminal government so as to gain 'safety' in exchange for what little freedom and liberty they have left.

This is not just another economic downturn. It is not just another bump in the road, or another war against non-existent foreign monsters. It is not an outside terror attack, or any natural disaster. This is a war on the people from the inside. This is very real, and without mass resistance now there will be no return to normal, as the people have allowed this heinous government at the behest of its masters to gain control that will never be relinquished voluntarily. The plan for the future has been exposed, and it can only lead to slavery of the people by the few that make up this authoritarian oligarchy bent on creating a technocratic state of total control.

"There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it."
