December 4, 2021

The world's first vaccine murder case has been filed in India's High Court against [Bill Gates](#), as the AstraZeneca's (Covishield) manufacturer and his partner Adar Poonawalla, who is the chief executive officer of a biopharmaceutical company, Serum Institute of India, and other Government officials and leaders involved in what they state is the murder of a 23-year-old man, Mr. Hitesh Kadve, who died as a result of the AstraZeneca vaccination.

Mr. Kadve had taken the vaccine due to the restrictions set by the railways that only double vaccinated individuals were able to travel and the belief that the vaccine is completely safe, now as a result of another death finally being reported as an adverse reaction, his mother has sought justice.

India's Adverse Event Following Immunisation

The Government of India's Adverse Event Following Immunisation (AEFI) Committee recently admitted that the death of 33-year-old Dr. Snehal Lunawat was due to side effects of the AstraZeneca [Covishield](#): vaccine, which is India's most widely used vaccine.

The family of Dr. Snehal Lunawat had approached the World Health Organisation (WHO) to intervene due to the death not being reported by the Indian Officials as an adverse event. The family was then to follow up with the ministry and Serum

Institute of India who had manufactured the vaccine but still did not receive a satisfactory response.

Despite the India Drugs Network (AIDN) helping the Lunawat family in successfully reporting the case as an AEFI, it was to take close to seven months after Dr. Lunawat's death for the AEFI to accept that she had died due to a blood clot from the Covishield vaccine ([Source](#)).

The report to the AEFI has raised awareness and the court case may now be the first of many as a result.

The information in this article can be found on the website for the Indian Bar Association ([here](#))

World's First Vaccine Murder case against Bill Gates, Adar Poonawalla filed in India's High Court

World's First Vaccine Murder case against Bill Gates, Adar Poonawalla filed in India's High Court. **[Kiran Yadav Vs. State and ors.Criminal Writ Petition (St.) 18017 of 2021]**

Petitioner has sought prosecution of AstraZeneca's (Covishield) manufacturer Bill Gates, his partner Adar Poonawalla and other Government officials and leaders involved in the murder of a 23 year old man, who lost his life because of vaccination. The deceased took the Covishield vaccine by believing in the false narrative that the vaccine is completely safe and also owing to the compliance requirement set by the Railways that only double vaccinated people would be allowed to travel.

The Government of India's AEFI (Adverse Event Following Immunisation) Committee has recently admitted that the death of Dr.SnehalLunawat,was due to side effects of the Covishield vaccine. The said report has exposed the falsity of the claim made by vaccine syndicatethat vaccines are totally safe.

Petitioner has claimed **Rs. 1000 crores (\$ 134 million USD)** compensation and has asked for interim compensation of **Rs. 100 crores (\$ 13.4 million USD)**.

Petitioner has also sought Lie Detector, Narco Analysis Test of accused Bill Gates and others.

Unlawful Promotion of Prescription Drugs

The Indian Bar Association point out previous underhand

behaviour of Glaxo Smith Kline (GSK), stating that the company is guilty of unlawful promotion of certain prescription drugs, its failure to report certain safety data, and its civil liability for alleged false price reporting practices.

Additionally, they state that the United States alleges that GSK sponsored dinner programs, lunch programs, spa programs and similar activities to promote the use of Paxil in children and adolescents. GSK paid a speaker to talk to an audience of doctors and paid for the meal or spa treatment for the doctors who attended.

Missing Data

Between 2001 and 2007, GSK failed to include certain safety data about Avandia, a diabetes drug. The missing information included data regarding certain post-marketing studies, as well as data regarding two studies undertaken in response to European regulators' concerns about the cardiovascular safety of Avandia. Since 2007, the FDA has added two black box warnings to the Avandia label to alert physicians about the potential increased risk of (1) congestive heart failure, and (2) myocardial infarction (heart attack).

The Indian Bar Association cited two cases that went before the American Court regarding the side effects of previous [MR vaccine](#) in one case, the Court accepted the settlement of compensation of 101 Million US Dollars to the victim.

Also, in another case in America, the CIA, FDA's office of criminal investigation, recovered around 10.2 Billion US Dollar from Pharma Company GlaxoSmithKline for various offences including suppression of side effects of the medicines and putting the lives of Americans in danger.

Paid Kickbacks

It also includes allegations that GSK paid kickbacks to health care professionals to induce them to promote and prescribe these drugs as well as the drugs Imitrex, Lotronex, Flovent,

and Valtrex. The United States alleges that this conduct caused false claims to be submitted to federal health care programmes.

Vaccination by Deception is a Criminal Wrong

The [Universal Declaration on Bioethics and Human Rights: UNESCO](#), makes it clear that before giving a vaccine or any treatment to a person, he should be informed about the side effects of the medicine and also about the alternate remedies available.

If any person is vaccinated by suppressing the facts or by telling a lie that the said vaccines are completely safe, amount to the consent being obtained under deception. In India, vaccination under deception or by force/coercion, or by putting certain stifling conditions is a civil and criminal wrong.

From the Indian Bar Association ([source](#))

*"i)C.B.I. be directed to treat this petition as F.I.R. and prosecute the offender as done by Hon'ble Supreme Court in the case of **Noida Entrepreneurs Association Vs. Noida (2011) 6 SCC 508** and followed by this Hon'ble Court in the matter between **Param Bir Singh v. State of Maharashtra, 2021 SCC OnLineBom 516**.*

ii)B.I. be further directed to immediately start custodial interrogation of the accused and take use of scientific tests like Lie Detector Test, Brain Mapping Test and Narco Analysis Test to unearth the complete conspiracy and to save the life of Indian Citizen;

iii)Direction to Respondent No. 1 i.e. State of Maharashtra to pay an interim compensation of Rs. 100 crores to the Petitioner forthwith and then to recover it from the guilty officials responsible for death of the Petitioners citizen by their deliberate and unlawful act of commission and omission."

As per the expert opinion, considering the proofs of sterling nature, Bill Gates and Adar Poonawalla will get death penalty.

The Petitioner raised previous alleged criminal antecedents of Bill Gates which is a "strong proof against Bill Gates and his vaccine syndicate".

The Petitioner also relied upon the criminal antecedents of Bill Gates in killing 8 female children by unauthorized trial of HPV vaccines in India and judgment of Constitution Bench of the Supreme Court in **Kalpna Mehta's Case (2018) 7 SCC 1**, which is a strong proof against Bill Gates and his vaccine syndicate.

Petitioner has also referred to the proofs of sinister plan of Bill Gates in polio programme which spoiled the lives of 4.5 lakh children in India as they suffered new type of paralysis. This is also an additional proof of Bill Gates' pervert and criminal mindset.

As per experts, there is no chance of Bill Gates getting bail in the case and all the movable and immovable properties of the accused will be confiscated soon.

Various social organizations and common people have decided to exercise citizen's right to arrest the accused as provided under **section 43 of Cr.P.C.** As per the said section, any citizen can arrest Bill Gates, Adar Poonawalla and other accused and handover them to the police.

The Indian Bar Association has said therefore that Bill Gates and Adar Poonawalla, are "accused of their involvement in the conspiracy." In India, the person allowing the false marketing of his product is also held to be guilty due to his act of commission and omission and that both Gates and Poonawalla are guilty of mass murders ([here](#)) The case is thought to be heard soon, regardless of the outcome, it will, at last, raise the much-needed awareness of both the adverse reactions caused by the vaccinations and the alleged criminal behaviour of the manufacturers and Bill Gates.
