

The Awakening – Star Across the Bow of Illusion

What I'm seeing take place in front of my eyes is so inspiring. What is going on, people ask. How can you see the awakening taking place that you talk about when everything seems to be falling apart and getting worse?

Glad you asked.

The awakening is everywhere. From massive cracks in the dystopian news façade to profound alternative revelations, it's here. You just have to look. And you know it in your heart if your course is on the right track. We are the star across the bow of deceit that they've feared and are fearfully recoiling from.

Know that.

That they are scrambling so desperately to cover it up is the greatest testament to this truth.

What Proof Do You Need?

When did humanity, in such a wave as now, ask such profound questions? When have you heard "Where did the moon come from", or "Why do we need a money system, never mind this one?" "Is this a holographic experience we're living in?" "What are our true origins?" Other questions that arise that you won't hear about in the mainstream sewage include people waking up and questioning our entire historical record from ancient history

and archeology to fundamental religious belief systems.

Don't kid yourself. The awakening is happening on a massive scale, and you know it.

The shift is on, however you want to conceive it. It's dawning on people profoundly in all walks of life. "Why is this so? Who said? Is this the only way?" It's absolutely revolutionary in every sense of the word. And the mainstream bullshit doesn't cut the mustard one bit. Why? Because it's become clear it's part of the continued lie – the pacifying programmed panacea of a falsely structured reality. People sense it and are rejecting it and looking for alternatives, which thankfully are at our fingertips.

"Sleep on sleepers – it's only a voice from the wilderness"...says the system megaphone. Sorry, we will be bullshat no more.

You can look at it just geopolitically if you want that slice of the consciousness cake. The mindless Machiavellian marching drum beat of the obviously psychotic adventurism of the would-be controllers into nation after nation is more evident by the day. Why advance such an agenda into benign territories of self governed people, and so massively and militaristically with obvious destructive results? Who gave who dominion over whom? What is driving this manifest destiny bullshit, or whatever justification du jour that's driving it?

We would be living in a peaceful world of continual progress were it not for these manipulative "rulers" who pull the levers of their plethora of carefully placed puppet strings on willing minions of our manipulated physical matrix. They're a very strange breed indeed, obviously masking the reality that lies beyond their veil. Nature itself attests to their immature intrusions on all that is sacred and lovingly designed.

And we're here to witness and endure this carnage – this is,

until we wake the hell up and shrug them off. And it doesn't take much to dispel darkness. Just turn on the light.

Need Examples?

Look at the backlash every time there's a false flag or engineered media stunt. Don't think the "alternative" media is all that "alternative" to anything, we're playing front and center in the real world. The would-be controllers are listening as we amass weight, evidence and awareness. Many, many more are listening than they'll ever let on. We've deviated war plans and screwed up their agenda big time no matter how carefully these bastards have planned their intended takeover and how many low level sycophants they've recruited to execute their diabolical agenda.

It's all based on empty lies.

Look at the uprisings against GMOs, EMF pollution, radiation, ocean contamination, west-based and Zionist genocide, police militarization, surveillance crackdowns, oligarchical control, financial usury, drone warfare, depopulation techniques, the advancement of transhumanism and on and on. We are not sitting silently in a corner. We are being heard. They just don't want to give us the satisfaction of realizing that.

So take it at intuitive face value if you can't yet see it in the news – they are running scared. How can they stand to even know such an arising is in their midst? You can just imagine their fury – let's glory in it. These weak-kneed kowtowers to evil have nothing to stand on, just temporal machinations borne of wicked yet empty intent. What we're witnessing is designed to instill fear and hence inaction and lack of confidence. Conditions they need for takeover.

Stand strong. One with Truth outweighs armies of lies.

They Are On the Run

This might sound presumptuous or pollyanna-ish to some but to

think so is lacking real spiritual vision. The Truth cannot be defeated. Oh, they can suppress and kill and intimidate, but they can never quash the Truth. It lives on no matter what shallow thunderous storm rolls over the landscape. The flowers will bloom, the trees will give life, the birds will fly and sing.

As with humanity.

The beauty we witness day in and day out of loving deeds and caring behavior is beyond description. Our gorgeous mother earth gives and gives while absorbing abuse after abuse. These affronts, she knows, are not the doing of conscious humanity, but engineered by enemy inspired forces. She can handle it, and will rectify all things in her time. In the meantime loving people also inhabit her realm who care for each other, a fact that is clearly downplayed, minimized and belittled by the would-be controllers as they exalt wickedness and destruction.

Such is our battlefield. One we were born into. That we're witnessing the apex of such emboldened forces of darkness and evil should not surprise us – we came here for this. It's grown darker exponentially in recent decades and will continue to do so until it expires itself. We're very close to that time.

Ours is to fulfill our part. That's all we need to concentrate on. Our individual role. Our activation in the face of such an onslaught – to connect, inspire, encourage and enliven.

Be encouraged. And activated.

The awakening is gathering like a supernatural storm swell to quench the falsely lit fires on the conscious shore of humanity and bring life and relief.

Revel in it – and be part of it! The time is now!
